Anders Breivik And The Rise Of Islamophobia:

Anders Breivik and the Rise of Islamophobia Sindre Bangstad, 2014-06-12 In late July 2011 Norway was struck by the worst terror attacks in its history In a fertilizer bomb attack on Government Headquarters in Oslo and a one hour long shooting spree at the Labour Party Youth Camp at Ut ya seventy seven people mostly teenagers were killed by Anders Behring Breivik By targeting young future social democratic leaders his actions were meant to lead to the downfall of Europe s purportedly multiculturalist elites thus removing an obstacle to his plans for an ethnic cleansing of Muslims from Europe In this highly original work leading Norwegian social anthropologist Sindre Bangstad reveals how Breivik s beliefs were not simply the result of a deranged mind but rather they are the result of the political mainstreaming of pernicious racist and Islamophobic discourses These ideas currently gaining common currency threaten equal rights to dignity citizenship and democratic participation for minorities throughout contemporary Europe An authoritative account of the Norwegian terror attacks and the neo racist discourse that motivated them *The Claim to Christianity* Hannah Strømmen, Ulrich Schmiedel, 2020-06-30 The far right is on the rise across Europe pushing a battle scenario in which Islam clashes with Christianity as much as Christianity clashes with Islam From the margins to the mainstream far right protesters and far right politicians call for the defence of Europe s Christian culture The far right claims Christianity This book investigates contemporary far right claims to Christianity Ulrich Schmiedel and Hannah Strømmen examine the theologies that emerge in the far right across Europe concentrating on Norway Germany and Great Britain They explore how churches in these three countries have been complicit complacent or critical of the far right sometimes intentionally and sometimes unintentionally Ultimately Schmiedel and Strømmen encourage a creative and collaborative theological response To counter the far right Christianity needs to be practiced in an open and open ended way which calls Christians into contact with Muslims

Religious Citizenships and Islamophobia Virginie Andre, Douglas Pratt, 2017-10-02 The attack on Charlie Hebdo in Paris in January 2015 once again brought to the fore the place of Islam in Western secular democracies and the questioning of Muslim citizenship The hyper mediatisation of jihadist terrorism and its subsequent conflation with Muslim communities in general has led to both an increase in widespread popular fear of Islam and its followers and the further marginalization and stigmatization of Muslim communities living in Western societies This book brings together a range of studies and reflections pertinent to the contemporary issues surrounding religious citizenship and Islamophobia Sentiments of insecurity and uncertainty which far right populist movements focus on are increasingly finding resonance among ordinary citizens Some traditional political parties are now flirting with demagogic discourse with respect to matters Islamic to the point where there is a hardening within Western democracies manifested in the adoption of illiberal policies the narrowing of the conception of secularity and the alienation of a younger generation of Muslims Yet there can still be found both glimmers of hope and slivers of sanity This book was originally published as a special issue of *Islam and Christian Muslim Relations*

The Bibles of the Far Right Hannah M. Strømme, 2024 The Bibles of the Far Right is about a far right worldview that has taken hold in contemporary Europe It focuses on the role Bibles have come to play in this worldview Starting with the case of far right terrorism in Norway in 2011 the study argues that particular perceptions of the Bible and particular uses of biblical texts have been significant in calls to protect Europe against Islam This study proposes new ways to understand political Bible use today in order to respond to violence inspired by biblical texts **Nordicism and Modernity** Gregers Einer Forssling, 2020-11-28 This book offers a complete narrative of the development of Nordicism from its roots in the National Romantic movement of the late eighteenth century through to its most notorious manifestation in Nazi Germany and finally to the fragmented forms that still remain in contemporary society It is distinctive in treating Nordicism as a phenomenon with its own narrative rather than as discreet episodes in works studying aspects of Eugenics Nationalism Nazism and the reception history of Old Norse culture It is also distinctive in applying to this narrative a framework of analysis derived from the parallel theories of Roger Griffin and Zygmunt Bauman to examine Nordicism as a process of myth creation protecting both the individual and society from the challenges and terror of an ever changing and accelerating state of modernity Terrorism in Memory Culture: Investigating the Aftermath of July 22 in Norway Alexandre Dessingué, Paula Hamilton, 2025-03-12 This edited collection examines the intersection between the developing fields of terrorism and cultural memory studies through a detailed study of the 2011 terrorist attack in Norway It examines how the work of remembrance has been established through arts such as theatre and fiction and also architecture heritage and education It traces the politics of the remembrance processes and explores the shifting meanings in public memories that change over the thirteen years since the attack and are constantly being negotiated in response to present circumstances It also charts general trends in memorialisation the globalising and digitalising of memory practices the speed of memorial initiatives the role of testimony and the importance of diverse narratives emerging through newer modes of communication Chapters 10 13 and 16 are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) Researching the Far Right Stephen D. Ashe, Joel Busher, Graham Macklin, Aaron Winter, 2020-11-09 Researching the Far Right brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with an interest in understanding the many manifestations of the far right and

cognate movements today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an ethically politically personally practically and professionally challenging nature Ethnicity, Race, Religion Katherine M. Hockey, David G. Horrell, 2018-06-28 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Religion ethnicity and race are facets of human identity that have become increasingly contested in the study of the Bible largely due to the modern discipline of biblical studies having developed in the context of Western Europe concurrent with the emergence of various racial and imperial ideologies The essays in this volume address Western domination by focusing on historical facets of ethnicity and race in antiquity the identities of Jews and Christians and the critique of scholarly ideologies and racial assumptions which have shaped this branch of study The contributors critique various Western European and North American contexts and bring fresh perspectives from other global contexts providing insights into how biblical studies can escape its enmeshment in often racist notions of ethnicity race empire nationhood and religion Covering issues ranging from translation and racial stereotyping to analysing the significance of race in Genesis and the problems of an imperialist perspective this volume is vital not only for biblical scholars but those invested in Christian Jewish and Muslim identity

The Church, The Far Right, and The Claim to Christianity Helen Paynter, 2024-08-30 In recent years far right organisations have invaded mosques across the UK with army issued Bibles declaring their actions a Christian crusade Others have paraded large crosses through Muslim majority areas and invaded migrant hotels harassing residents in their so called crusade Far right appeals to clean up society and restore Christian Britain can be quite attractive to some Christians However what they may fail to appreciate is that this rhetoric may be cynically employed by those whose allegiance and values are quite contrary to Christian ones Despite all this the response from official church sources in the UK has been notably subdued and resources to help churches address hate crimes or racial tensions are scarce This book aims to fill that void Bringing together insights from theologians church practitioners and leading experts this volume examines the church's response to the rise of far right thinking in UK society and explores how it can respond more effectively With a foreword by David Gushee this book offers critical and constructive perspectives for the church to confront these challenges **The Nordic Bible** Marianne Bjelland Kartzow, Kasper Bro Larsen, Outi Lehtipuu, 2023-09-05 The volume offers a new critical reflection on the use of the Bible in contemporary cultural and political debates in the Nordic countries In Nordic Lutheran societies the Bible has been perceived as a basis of religion and social cohesion Whereas such religious and confessional factors are well researched vis vis the historical genesis of the Nordic welfare states the focus here is on public use of the Bible in debates of today
