Shepherd,Caitlin Hamilton,2016-05-20 The practices of world politics are now scrutinised in a way that is unprecedented with even those previously or conventionally assumed to be disengaged from international affairs being drawn into world politics by social media Interactive websites allow users to follow election results in real time from the other side of the world and online mapping means that the world out there is now available on your mobile phone Understanding Popular Culture and World Politics in the Digital Age engages these themes in contemporary world politics to better understand how digital communication through new media technologies changes our encounters with the world

Whether the focus is digital media social networking or user generated content these sites of political activity and the artefacts they produce have much to tell us about how we engage world politics in the contemporary age This volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of International Relations with the collection of cutting edge essays dealing specifically with the intertextuality of world politics and digital popular culture This book will be of use to International Relations research academics and critically engaged publics interested in the core themes of global politics subjectivity militarism humanitarianism civil society organisation and governance The book also employs theories and techniques closely associated with other social science disciplines including political theory sociology cultural studies and media studies

The News Gap Pablo J. Boczkowski, Eugenia Mitchelstein, 2015-08-21 An analysis of divergent online news preferences of journalists and consumers and what this means for media and democracy in the digital age The websites of major media organizations CNN USA Today the Guardian and others provide the public with much of the online news they consume But although a large proportion of the top stories these sites disseminate cover politics international relations and economics users of these sites show a preference as evidenced by the most viewed stories for news about sports crime entertainment and weather In this book Pablo Boczkowski and Eugenia Mitchelstein examine the divergence in preferences and consider its implications for the media industry and democratic life in the digital age Drawing on analyses of more than 50 000 stories posted on twenty news sites in seven countries in North and South America and Western Europe Boczkowski and Mitchelstein find that the gap in news preferences exists regardless of ideological orientation or national media culture and that it is not affected by innovations in forms of storytelling such as blogs and user generated content on mainstream news sites Drawing upon these findings they explore the news gap's troubling consequences for the matrix that connects communication technology and politics in the digital age

Celebrity in the 21st Century Larry Z. Leslie, 2011-01-12 This book offers a critical look at celebrity and celebrities throughout history emphasizing the development of celebrity as a concept its relevance to individuals and the role of the public and celebrities in popular culture Tabloid magazines television shows and Internet sites inundate us with daily updates about movie stars musicians athletes and even those who have achieved celebrity status simply for being rich and extravagant Disturbingly it appears that the harder our celebrities fall the more fascinating they are to us As popular culture becomes more influential it is important to understand both the positive and negative aspects of celebrity This volume traces the development of the concept of celebrity discusses some of the problems facing both celebrities and their followers and points to future trends and developments in our cultural understanding of celebrity The author's treatment is unflinchingly honest revealing the importance of the public's role in celebrities lives and establishing firm criteria for determining who is a celebrity and who is not
