Beyond Fragmentation Perspectives On Caribbean History:

Beyond Fragmentation Juanita De Barros,Audra Diptee,David Vincent Trotman,2006 This is the first reader that goes beyond the fragmentation between Spanish British Dutch and French Caribbean history to explain slavery emancipation colonization and decolonization in the region The contributors to this pan Caribbean approach are leading scholars in the field including Franklin Knight and Luis Martinez Fernandez

Beyond Fragmentation Juanita De Barros,Audra Diptee,David Vincent Trotman,2006 In this book leading scholars pull together some of the most recent research on the key themes of Caribbean history slavery the transition to freedom colonialism and decolonization Although all parts of the Caribbean experienced these phases the manner in which they did so differed significantly in part because of their distinct imperial histories Contemporary fragmentation and insularity have led to significant variations in the region s historiography The contributors examine the divergent historiographical and methodological developments in the British French Spanish and Dutch Caribbean By addressing these four linguistic areas of the Caribbean they aim to overcome the traditional differences imposed by language and in the process to explore hotly debated subjects and new directions in Caribbean scholarship

Caribbean New Orleans Cécile Vidal,2019-04-23 Combining Atlantic and imperial perspectives Caribbean New Orleans offers a lively portrait of the city and a probing investigation of the French colonists who established racial slavery there as well as the African slaves who were forced to toil for them Casting early New Orleans as a Caribbean outpost of the French Empire rather than as a North American frontier town Cécile Vidal reveals the persistent influence of the Antilles especially Saint Domingue which shaped the city s development through the eighteenth century In so doing she urges us to rethink our usual divisions of racial systems into mainland and Caribbean categories Drawing on New Orleans s rich court records as a way to capture the words and actions of its inhabitants Vidal takes us into the city s streets market taverns church hospitals barracks and households She explores the challenges that slow economic development Native American proximity imperial rivalry and the urban environment posed to a social order that was predicated on slave labor and racial hierarchy White domination Vidal demonstrates was woven into the fabric of New Orleans from its founding This comprehensive history of urban slavery locates Louisiana s capital on a spectrum of slave societies that stretched across the Americas and provides a magisterial overview of racial discourses and practices during the formative years of North America s most intriguing city

The Anthropology of Elites J. Abbink,T. Salverda,2012-12-28 Offering insightful anthropological historical contributions to the understanding of elites worldwide this book helps us grasp their ways of life and role in times of contested global inequalities Case studies include the Polish gentry the white former colonial elite of Mauritius professional elites and transnational financial elites

Health and Medicine in the circum-Caribbean, 1800-1968 Juanita De Barros,Steven Palmer,2010-11-16 Health and medicine in colonial environments is one of the newest areas in the history of medicine but one in which the Caribbean is conspicuously absent Yet the complex and fascinating history of the Caribbean

borne of the ways European colonialism combined with slavery indentureship migrant labour and plantation agriculture led to the emergence of new social and cultural forms which are especially evident the area of health and medicine The history of medical care in the Caribbean is also a history of the transfer of cultural practices from Africa and Asia the process of creolization in the African and Asian diasporas the perseverance of indigenous and popular medicine and the emergence of distinct forms of western medical professionalism science and practice This collection which covers the French Hispanic Dutch and British Caribbean explores the cultural and social domains of medical experience and considers the dynamics and tensions of power The chapters emphasize contestations over forms of medicalization and the controls of public health and address the politics of professionalization not simply as an expression of colonial power but also of the power of a local elite against colonial or neo colonial control They pay particular attention to the significance of race and gender focusing on such topics as conflicts over medical professionalization control of women s bodies and childbirth and competition between European and Indigenous healers and healing practices Employing a broad range of subjects and methodological approaches this collection constitutes the first edited volume on the history of health and medicine in the circum Caribbean region and is therefore required reading for anyone interested in the history of colonial and post colonial medicine

Haitian History
Alyssa Goldstein Sepinwall, 2013 Despite Haiti s proximity to the United States and its considerable importance to our own history Haiti barely registered in the historic consciousness of most Americans until recently Those who struggled to understand Haiti s suffering in the earthquake of 2010 often spoke of it as the poorest country in the Western hemisphere but could not explain how it came to be so In recent years the amount of scholarship about the island has increased dramatically Whereas once this scholarship was focused on Haiti s political or military leaders now the historiography of Haiti features lively debates and different schools of thought Even as this body of knowledge has developed it has been hard for students to grasp its various strands Haitian History presents the best of the recent articles on Haitian history by both Haitian and foreign scholars moving from colonial Saint Domingue to the aftermath of the 2010 earthquake It will be the go to one volume introduction to the field of Haitian history helping to explain how the promise of the Haitian Revolution dissipated and presenting the major debates and questions in the field today

Transnational Perspectives on Latin America
Luis Roniger, 2022 Latin America is a region made up of multiple states with a diversity of races ethnicities and cultures In Transnational Perspectives on Latin America Luis Roniger argues that a regional perspective is significant for understanding this part of the Western hemisphere He claims that geopolitical sociological and cultural trends molded a contiguity of influences shaping a transnational arena of connected histories cross border interactions and shared visions complementing the process of separate nation state formation

Intimate Relationships Across Boundaries Julia Moses, Julia Woesthoff, 2021-05-16 This collection investigates intermarriage and related relationships around the world since the eighteenth century The contributors explore how intimate relationships challenged boundary crossings of various kinds social

geographic religious ethnic To this end the volume considers a range of related issues Who participated in these unions How common were they and in which circumstances were they practised or banned Taking a global view the book also questions some of the categories behind these relationships For example how did geographical boundaries across national lines distinctions between colonies and metropolises or metaphors of the East and the West shape the treatment of intermarriage What role have social and symbolic boundaries such as presumed racial religious or socio economic divides played To what extent and how were those boundaries blurred in the eyes of contemporaries Not least how have bureaucracies and law contributed to the creation of boundaries preventing romantic unions Intimate relationships the contributors suggest brought into sharp relief assumptions not only about community and culture but also about the sanctity of the sphere of love and family The chapters in this book were originally published as a special issue of *The History of the Family* **Seeking**

Imperialism's Embrace Kristen Stromberg Childers, 2016-09-01 In 1946 the people of the French Antilles the Caribbean islands of Martinique and Guadeloupe chose the path of assimilation rather than independence from France Their histories offer an important contrast to the wars of decolonization following World War II Although Antilleans experienced profound disappointments with the process the vote for departmentalization was based on widely shared beliefs about the possibilities of gaining equality through an alternative path to decolonization **Race and Class in the Colonial Bahamas,**

1880-1960 Gail Saunders, 2017-10-16 Saunders resoundingly affirms the relevance of island history Scholars will appreciate the detail and insights Choice Deftly unravels the complex historical interrelationships of race color class economics and environment in the Colonial Bahamas An invaluable study for scholars who conduct comparative research on the British Caribbean Rosalyn Howard author of *Black Seminoles in the Bahamas* Saunders is to be commended for a scholarly study that prominently features the non white majority in the Bahamas a group which usually has been overlooked Whittington B Johnson author of *Post Emancipation Race Relations in The Bahamas* In this one of a kind study of race and class in the Bahamas Gail Saunders shows how racial tensions were not necessarily parallel to those across other British West Indian colonies but instead mirrored the inflexible color line of the United States Proximity to the U S and geographic isolation from other British colonies created a uniquely Bahamian interaction among racial groups Focusing on the post emancipation period from the 1880s to the 1960s Saunders considers the entrenched though extra legal segregation prevalent in most spheres of life that lasted well into the 1950s Saunders traces early black nationalist and pan Africanism movements as well as the influence of Garveyism and Prohibition during World War I She examines the economic depression of the 1930s and the subsequent boom in the tourism industry which boosted the economy but worsened racial tensions proponents of integration predicted disaster if white tourists ceased traveling to the islands Despite some upward mobility of mixed race and black Bahamians the economy continued to be dominated by the white elite and trade unions and labor based parties came late to the Bahamas Secondary education although limited to those who could afford it was the route to a better life for

nonwhite Bahamians and led to mixed race and black persons studying in professional fields which ultimately brought about a rising political consciousness Training her lens on the nature of relationships among the various racial and social groups in the Bahamas Saunders tells the story of how discrimination persisted until at last squarely challenged by the majority of Bahamians
