Loyd, Matt Mitchelson, Andrew BurrIDGE, 2013-12-01 The crisis of borders and prisons can be seen starkly in statistics In 2011 some 1 500 migrants died trying to enter Europe and the United States deported nearly 400 000 and imprisoned some 2 3 million people more than at any other time in history International borders are increasingly militarized places embedded within domestic policing and imprisonment and entwined with expanding prison industrial complexes Beyond Walls and Cages offers scholarly and activist perspectives on these issues and explores how the international community can move toward a more humane future Working at a range of geographic scales and locations contributors examine concrete and ideological connections among prisons migration policing and detention border fortification and militarization They challenge the idea that prisons and borders create safety security and order showing that they can be forms of coercive mobility that separate loved ones disempower communities and increase shared harms of poverty Walls and cages can also fortify wealth and power inequalities racism and gender and sexual oppression As governments increasingly rely on criminalization and violent measures of exclusion and containment strategies for achieving change are essential Beyond Walls and Cages develops abolitionist no borders and decolonial analyses and methods for social change showing how seemingly disconnected forms of state violence are interconnected Creating a more just and free world whether in the Mexico U S borderlands the Morocco Spain region South Africa Montana or Philadelphia requires that people who are most affected become central to building alternatives to global crosscurrents of criminalization and militarization Contributors Olga Aksyutina Stokely Baksh Cynthia Bejarano Anne Bonds Borderlands Autonomist Collective Andrew BurrIDGE Irina Contreras Renee Feltz Luis A Fernandez Ruth Wilson Gilmore Amy Gottlieb Gael Guevara Zoe Hammer Julianne Hing Subhash Kateel Jodie M Lawston Bob Libal Jenna M Loyd Lauren Martin Laura McTighe Matt Mitchelson Maria Cristina Morales Alison Mountz Ruben R Murillo Joseph Nevins Nicole Porter Joshua M Price Said Saddiki Micol Seigel Rashad Shabazz Christopher Stenken Proma Tagore Margo Tamez Elizabeth Vargas Monica W Varsanyi Mariana Viturro Harsha Walia Seth Freed Wessler Religious and Ethical Perspectives on Global Migration Elizabeth W.

Collier, Charles R. Strain, 2014-06-05 *Religious and Ethical Perspectives on Global Migration* examines the complicated social ethics of migration in today's world. Editors Elizabeth W. Collier and Charles R. Strain bring the perspectives of an international group of scholars toward a theory of justice and ethical understanding for the nearly two hundred million migrants who have left their homes seeking asylum, greater freedom, safety, economic opportunity, or reunion with family members. Migrants move out of fear, desperation, hope, love for their families, or a myriad of other complex motivations. Faced with both the needs and flows of people and the walls that impede them, what actions ought we both individually and collectively take? What is the moral responsibility of those of us in particular who reside comfortably in our native lands? There is no univocal response to these questions. Instead, multiple perspectives on migration must be examined. This book begins by looking at different geographic regions around the world and highlighting particular issues within each. Finding that religious traditions represent the strongest countervailing sources of values to the homogenizing tendencies of economic globalization, the study then offers a plurality of religious perspectives. The final chapters examine the salient issues and the proposed solutions that have emerged specifically within the U.S. context. These studies range from militarization of the U.S. border with Mexico to the impact of migrants on native-born low-skilled workers. Encompassing a wide range of cultural and scholarly voices, *Religious and Ethical Perspectives on Global Migration* provides insight for ethics, moral philosophy, social and political philosophy, religious studies, social justice, globalization, and identity formation.

America Beyond Black and White Ronald Fernandez, 2009-05-14 This book is both powerful and important. Powerful for the testimony it provides from Americans of many different and even mixed races about their experiences. And important because there is a racial revolution underway that will upend race as we know it during the twenty-first century. John Kenneth White, Catholic University of America. *America Beyond Black and White* is a call for a new way of imagining race in America. For the first time in U.S. history, the black-white dichotomy that has historically defined race and ethnicity is being challenged not by a small minority but by the fastest growing and arguably most vocal segment of the increasingly diverse American population: Mexicans, Chinese, Japanese, Koreans, Indians, Arabs, and many more who are breaking down and recreating the very definitions of race. Drawing on interviews with hundreds of Americans who don't fit conventional black-white categories, the author invites us to empathize with these doubles and to understand why they may represent our best chance to throw off the strictures of the black-white dichotomy. The revolution is already underway as newcomers and mixed-race fusions refuse to engage in the prevailing Anglo-Protestant culture. Americans face two choices: understand why these individuals think as they do, or face a future that continues to define us by what divides us rather than by what unites us.

Latino Immigrants and the Transformation of the U.S. South Mary E. Odem, Elaine Cantrell Lacy, 2009 The Latino population in the South has more than doubled over the past decade. The mass migration of Latin Americans to the U.S. South has led to profound changes in the social, economic, and cultural life of the region and inaugurated a new era in southern

history This multidisciplinary collection of essays written by U S and Mexican scholars explores these transformations in rural urban and suburban areas of the South Using a range of different methodologies and approaches the contributors present in depth analyses of how immigration from Mexico and Central and South America is changing the South and how immigrants are adapting to the southern context Among the book s central themes are the social and economic impact of immigration the resulting shifts in regional culture new racial dynamics immigrant incorporation and place making and diverse southern responses to Latino newcomers Various chapters explore ethnic and racial tensions among poultry workers in rural Mississippi and forestry workers in Alabama the Mexicanization of the urban landscape in Dalton Georgia the costs and benefits of Latino labor in North Carolina the challenges of living in transnational families immigrant religious practice and community building in metropolitan Atlanta and the creation of Latino spaces in rural and urban South Carolina and Georgia

Entitled to Nothing Lisa Sun-Hee Park,2011-09-01 In *Entitled to Nothing* Lisa Sun Hee Park investigates how the politics of immigration health care and welfare are intertwined Documenting the formal return of the immigrant as a public charge or a burden upon the State the author shows how the concept has been revived as states adopt punitive policies targeting immigrants of color and require them to pay back benefits for which they are legally eligible during a time of intense debate regarding welfare reform Park argues that the notions of public charge and public burden were reinvigorated in the 1990s to target immigrant women of reproductive age for deportation and as part of a larger project of disciplining immigrants Drawing on nearly 200 interviews with immigrant organizations government agencies and safety net providers as well as careful tracking of policies and media coverage Park provides vivid first person accounts of how struggles over the public charge doctrine unfolded on the ground as well as its consequences for the immigrant community Ultimately she shows that the concept of public charge continues to lurk in the background structuring our conception of who can legitimately access public programs and of the moral economy of work and citizenship in the U S and makes important policy suggestions for reforming our immigration system

Immigrant America Prof. Alejandro Portes,Prof. Rubén G. Rumbaut,2014-08-30 This revised updated and expanded fourth edition of *Immigrant America A Portrait* provides readers with a comprehensive and current overview of immigration to the United States in a single volume Updated with the latest available data *Immigrant America* explores the economic political spatial and linguistic aspects of immigration the role of religion in the acculturation and social integration of foreign minorities and the adaptation process for the second generation This revised edition includes new chapters on theories of migration and on the history of U S bound migration from the late nineteenth century to the present offering an updated and expanded concluding chapter on immigration and public policy

American Contradiction Paul Starr,2025-10-14 How did Americans come to elect Barack Obama and then Donald Trump Those choices capture what Paul Starr calls the American contradiction The whole truth about America Starr argues in this new history of the United States since the 1950s has never been contained in one consistent set of values or interests

Our nation was born in the contradiction between freedom and slavery Today it is beset by a contradiction between a changing people and a resisting nation a nation with entrenched institutions that have empowered those who fear the changes and look to restore an old America of their imagining Starr tells this history from the dual standpoints of the progressive movements that changed the American people and of the movements that emerged in response Black Americans he argues served as a model minority setting in motion America s twentieth century revolutions in gender as well as race and rights With industry s decline and the rise of economic inequality millions of Americans have felt dispossessed and want the old America back Trump is their revenge American Contradiction tells the story of how 1950s America became the almost unrecognizable America of the 2020s Border Lives Sergio R. Chávez,2016 Border Lives tells the story of former current and future border crossers who live in Tijuana and use the border as a resource to construct their livelihoods Drawing on almost a year and a half of ethnographic data Sergio Ch vez demonstrates the ways in which the border can be both a resource and a constraint on people s lives
