Some of these technologies are firsts of their kind and start trends that other automakers soon follow, with the innovations becoming adopted across the board. The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research, develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners. Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles, and these articles have been collected into this volume. This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry. In this book, we explore from an OEM and supplier perspective the newest and most

technically interesting production vehicles released for the 2015 model year In addition we also have included a technology focused recap of the concept cars revealed during 2014 Readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world Each new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of Automotive Engineering in this exclusive compilation of print and online content The novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from you can only get from Automotive Engineering This book is published for the most technically minded enthusiasts who are interested in new car technologies as well as practicing automotive engineers who are interested in new engineering trends Engineering trends explored focus on what engineers are doing to meet the sometimes conflicting consumer and governmental demands for improved vehicle fuel efficiency performance safety and comfort In short this book Provides a single source for information on the key engineering trends of the year from both automaker and supplier perspectives Allows the reader to skip to chapters that cover specific car models that interest them or read about all models from beginning to end Makes for dynamic book reading with its large number of big full color images and easy reading magazine format *Lemon-Aid New and Used Cars and Trucks 1990-2015* Phil Edmonston,2013-11-18 **Lemon-Aid New and Used Cars and Trucks 2007-2018** Phil Edmonston,2018-02-03 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market Dr Phil along with George Iny and the Editors of the Automobile Protection Association pull no punches *Lemon-Aid New and Used Cars and Trucks 1990-2016* Phil Edmonston,2015-11-21 This book steers buyers through the the confusion and anxiety of new and used vehicle purchases unlike any other car and truck book on the market Dr Phil Canada s best known automotive expert for more than forty five years pulls no punches *Designing Interaction and Interfaces for Automated Vehicles* Neville Stanton,Kirsten M. Human Factors and Ergonomics researchers and practitioners involved with systems engineering and automotive academics
_ In this book Prof Stanton and colleagues show how Human Factors methods can be applied to the tricky problem of
interfacing human drivers with vehicle automation They have developed an approach to designing the human automation
interaction for the handovers between the driver and the vehicle This approach has been tested in driving simulators and
most interestingly in real vehicles on British motorways The approach called User Centred Ecological Interface Design has
been validated against driver behaviour and used to support their ongoing work on vehicle automation I highly recommend
this book for anyone interested or involved in designing human automation interaction in vehicles and beyond Professor
