[Mobile Capital and Latin American Development](#) James E. Mahon, 2010-11-01 Particularly timely in light of the recent Mexican peso crisis Mobile Capital and Latin American Development examines the causes consequences and implications of the Latin American capital flight of the 1980s It addresses the increasingly mobile and privatized nature of international capital and its power to shape economic policy in those countries Through a comparison of the policy experiences of Argentina Brazil Chile Colombia Mexico and Venezuela James E Mahon finds that those countries that suffered the most capital flight had previously faced fewer structural trade problems and had not reoriented their exchange policies to diversify exports and deal with exchange market instability Since the countries that stumbled worst into capital flight before the debt crisis were later among the most aggressive neoliberal reformers Mahon discusses the ways in which overseas capital served as a kind of pressure for free market reform Finally the idea that

internationally mobile capital now can operate as a kind of senate an arm of the wealthy few guarding the established order against the arbitrary dangerous tendencies of the executive and popular chamber is examined with relation to theories of dependency and the institutionalization of democracy *E - Commerce & Digital Marketing Strategies*
