Born To Rule The Unauthorised Biography Of Malcolm Turnbull:

Born to Rule? Paddy Manning, 2018-12-03 After wresting the prime ministership from long term adversary Tony Abbott Malcolm Turnbull's term at the Lodge was brutally short. It traversed a soaring electoral honeymoon to the marathon 2016 election to the compromises of a government with the slimmest of majorities and finally death by political sword. Why Was it collateral damage for a Liberal Party tearing itself apart or a consequence of the man himself? Born to Rule by esteemed journalist Paddy Manning is the updated bestselling biography of one of Australia's most celebrated overachievers charting his very public highs and lows in technicolour detail. Based on countless interviews and painstaking research Born to Rule charts Turnbull's relentless progression from exclusive Point Piper to Oxford University from beating the Thatcher government in the Spycatcher trial to losing the referendum on the republic from defending the late Kerry Packer in a Royal Commission to defending his own role in Australia's biggest corporate collapse. It gives forensic accounts of him striking it rich as co-founder of OzEmail his spectacular misstep with the UteGate affair and the hotly contested battle for Wentworth on his grand march towards becoming prime minister. Turnbull may be out of parliament but will he ever be out of politics?

Leadership Performance and Rhetoric Adam B. Masters, John Uhr, 2017-08-16 This book examines both the rhetorical content of contemporary public leadership and the leadership methods pioneered by early English statesman Sir Francis Bacon. In particular it considers the use of public rhetoric to defend leadership legitimacy in six case studies drawing on leadership contests in recent Australian political history. The authors map out the complex language of leadership in contemporary politics through chapter length portraits of the inter-related political rhetoric of prime ministers Rudd, Gillard, Abbott and Turnbull plus former foreign minister Bob Carr and indigenous leader Noel Pearson. The process is a novel application of leadership analysis derived from the political philosophy of Francis Bacon who emerges as a founder of the study and indeed practice of political and public leadership. The book will appeal to students and scholars across the fields of political science, communication and rhetorical studies and political history.

He was involved in the unravelling of the Tourang bid for Fairfax struck it rich as co-founder of OzEmail and fought his own hotly contested battle for Wentworth. As opposition leader he was duped by Godwin Grech's UteGate fiasco as the most tech savvy communications minister he oversaw a nobbled NBN scheme. And now he has assumed the leadership of the Liberal Party for the second time after wresting the prime ministership from first
