Adirondack Canoe Waters, North Flow Paul F. Jamieson, 1975 **Adirondack Canoe Waters, North Flow** Paul F. Jamieson, 1977 *Adirondack Canoe Waters, North Flow* Paul F. Jamieson, Donald Morris, 1988 **Adirondack Canoe Waters, North Flow** Paul F. Jamieson, 1986 *Adirondack Canoe Waters* Alec C. Proskine, 1985 Explorers Guide Adirondacks Seventh Edition Annie Stoltie, 2012-09-17 An illustrated travel guide to the Adirondacks that includes listings of accommodations and restaurants tourist sites entertainment and shopping and special events along with maps and a history of the region *The Adirondacks* Gary Randorf, 2002-07-29 One hundred full color photographs illustrate this history and current health of upstate New York s Adirondack Park the first private public partnership dedicated to the protection of a U S wilderness area Here is the first lesson about the Adirondacks captured in Gary Randorf s magnificent photos It is not only alpine granite in fact of the park s six million acres only about eighty five scattered on top of the tallest mountains are that gorgeous pseudo Arctic Aside from the touristed High Peaks the Adirondacks comprise millions upon millions of acres of Low Peaks of beavery draws and bearish woods of hills and hills and hills countless drainages and muddy ponds The second point about the Adirondacks a glory carefully revealed in the words and pictures of this book is that it represents a second chance wilderness and as such a hope that the damage caused by human beings is not irreversible It is metaphor as much as place from the foreword by Bill McKibben In *The Adirondacks Wild Island of Hope* Gary A Randorf offers 100 photographs to illustrate this unique comprehensive history and natural history of the Adirondack Park the first private public partnership in the United States dedicated to the protection of a wilderness area Situated in northeast New York this regional park of six million acres represents a unique blend of public wildlands intermixed with commercial forests farms mines private parks prisons scattered homes dozens of villages and a year round population of 130 000 The ongoing attempts over the last century to make the Adirondacks a park have made this region a striving ground for living with the land rather than outside or above it Much of the strife is over finding a right relationship to the land treating it not as a commodity to be exploited but as a community to which all living things belong and upon which all depend Today the Adirondacks regional park with its six million acres represents a second chance wilderness as Bill McKibben writes in his foreword to this book The concerns of this park are the same concerns that apply to all of America s parks recreational areas and wildernesses with the addition of how to maintain the fragile peace between human and natural communities How that second chance can be realized is the focus of Gary Randorf s text and stunning color photographs *Boats and Boating in the Adirondacks* Hallie E. Bond, 1998-08-01 Adirondack history is a tale written o the water In the Adirondacks people have traveled conducted warfare hunted and fished gone to church proposed marriage and driven logs in on from or by water Without boats small and large Adirondack history social recreational commercial and environmental would be an affair entirely different from what we have come to know In this lavishly illustrated account Hallie E Bond presents a history of these boats canoes sailboats power launches

outboards and the indigenous guideboat that figure prominently in the overall history of the Adirondacks. The pre-contact Indians paddled dugout and bark canoes in the seventeenth and eighteenth centuries; these craft were joined by skiffs and bateaux. Between 1820 and World War II a distinctive tradition of boat building developed, culminating in the famous Adirondack guideboat. As the nineteenth century progressed, a variety of small, fresh-water, muscle-powered boats was produced in the Adirondacks, an assemblage matched by only a few places in the country. There were the canoes and the men that made them famous: John Henry Rushton and Nessmuk, and the guideboats and their builders, H. Dwight Grant and Willard Hanmer. In the early twentieth century, the development of the internal combustion engine irrevocably changed not only boat use and design but life and leisure in the Adirondacks. Bond skillfully captures the whole panorama of boats and boating in the Adirondacks, from early dugouts and bateaux to the high-powered inboards that won Gold Cup races on Lake George and the Kevlar pack canoes of today. Drawing on her experience as an historian and Curator of Collections and Boats at the Adirondack Museum, Bond places events and trends of the region in the context of national and international history and describes the significant contribution of the Adirondacks in the early twentieth-century development of recreation and travel in America. *Boats and Boating in the Adirondacks* also includes a descriptive catalog of boats from the museum's own collection, with nearly two hundred illustrations in addition to those in the narrative, a list of boatbuilders active in the North Country before 1975, and a valuable glossary of terms.
