Hindu Javanese Robert W. Hefner, 2021-02-09 An illuminating account of cultural resilience in Java Five centuries after the fall of its last Hindu Buddhist kingdom Java retains only one small population that preserves a non Islamic priestly tradition descended from early Hindu clergy Known as the Tengger these mountain Javanese lack the courts castes and religious scholars that transmit Hindu tradition in nearby Bali the only other area in Indonesia to have kept a Hindu faith What explains the cultural resilience of the Tengger Robert Hefner blends historical and ethnographic research to explain the enduring strength of a religion in the face of a revitalized Indonesian Islam He provides insight into Java s earlier Hindu traditions and the process of Islamization that swept them aside and shows how the Tengger example speaks not only to cultural change in a corner of Java but to the dissolution of traditional religions amid the advance of world faiths Exploring how meaning is derived from public symbolism Hindu Javanese emphasizes the centrality of tacit knowledge in religious practice and the role of history and community in continually shaping and renewing spiritual experience

Shook Jennifer Hull, 2020-09-15 Dave Hahn a local of Taos New Mexico is a legendary figure in mountaineering Elite members of the climbing community have likened him to the Michael Jordan Cal Ripken or Michael Phelps of the climbing world The 2015

expedition he would lead came just one short year after the notorious Khumbu Icefall avalanche claimed the lives of sixteen Sherpas Dave and his team Sherpa sirdar Chhering Dorjee assistant guide JJ Justman base camp manager Mark Tucker and the eight clients who had trained for the privilege to attempt to summit with Dave Hahn spent weeks honing the techniques that would help keep them alive through the Icefall and the Death Zone None of this could have prepared them for the earthquake that shook Everest and all of their lives on the morning of April 25 2015 Shook tells their story of resilience nerve and survival on the deadliest day on Everest **Skiing** ,2009-10 **Everest 1953** Mick Conefrey,2014-01-31 [CLICK HERE](#) to download a sample from Everest 1953 In the only book to tell the real story of Everest 1953 Mick Conefrey reveals that what has gone down in history as a supremely well planned attempt was in fact beset by crises both on and off the mountain To succeed team leader Colonel John Hunt and his team had to draw on unimaginable skill and determination as well as sheer British ingenuity Everest 1953 is not only a gripping true story of courage and adventure but a fascinating window into the media contest to cover this seminal event in coronation year The Times had exclusive access to the team but the Daily Mail and other papers used subterfuge and shenanigans to get their scoops Revealing the answers to long enduring controversies did Tenzing or Hillary actually reach the top first and exploring the legacy of this great ascent it is the perfect way to commemorate a year of British sporting triumph [Five Big Mountains](#) David N. Schaeffer,2010 What does it take for a regular guy to climb some of the highest mountains in the world Five Big Mountains takes you there instantly placing the reader and the author on a steep glacier on Pico de Orizaba with equipment trouble and the tough decision any high altitude climber inevitably faces should he turn back or keep going to the summit The central theme of the book is that with proper preparation careful planning persistent training and the best guides even an amateur with little mountaineering experience can climb and reach the summits of some of the most famous mountains in the world though there are risks involved that need to be minimized Written in the first person Five Big Mountains takes the reader into the mind of a regular guy trying to reach the summit of four of the famous Seven Summits as well as his first high altitude climb of a steep glaciated Mexican volcano The book tells what climbing is really like the struggles and the triumphs the emotions and the dangers moment by moment The reader is taken to Russia Africa Antarctica South America and Mexico Along the way the reader is able to travel with and discover the local flavor of each exotic or not so exotic venue Color photos help the reader to visualize the glorious majesty of the peaks but the narrative provides the nitty gritty of the author s daily challenges on the mountains [The Making of a Rescuer](#) Nicholas Campbell Corff,2012-11-26 This is a book about the making of a hero a rescuer There are few of us that can claim to be bigger than life heroes but surely the story of Dr Otto Trotts life is the story of one of these Because of his existence many lives have been saved or improved human suffering has been reduced and the world is a better place What greater statement can be made about a person A hiker sees the beautiful blue of a mountain gentian just off the trail and stops to capture the image through a snapshot but in seeking a slightly wider angle steps back in

a flash the hiker lies injured amid the rocks A snowboarder searches for untouched powder snow but finds a cliff instead A small plane has engine trouble and glides steeply toward a mountain meadow An early snowstorm catches two climbers exposed in the high alpine An avalanche buries a foolish snowmobiler trying to make the highest mark on the side of snow covered slope An older gentleman has a heart attack far from his city hospital Its quite possible and even probable that what all of the above have in common is Dr Otto Trott He co founded the search and rescue organization that seeks out the injured and carries them down from the mountains he pioneered the medical treatments that will be used for hypothermia and frostbite he introduced advanced European methods of climbing as well as the identification of avalanche danger areas and the systematic search for and rescue of accident victims Most importantly Otto taught generations of others to follow in his footsteps As Lou Whittaker the renowned mountain guide states This book is a must for anyone who seeks the mountains and their reward Dee Molenaar the acclaimed mountaineer artist and writer says that this treatise is long overdue while the legendary high altitude premier climber Jim Wickwire writes that Nicholas Corff has brought to life the fascinating story of Otto Trott There is no question that Dr Otto Trott was one of those few men who was a legend in his own time but he always remained a man of great empathy as well as skill who sought to relieve suffering improve the safety of the outdoors and protect the mountain environment he so loved In his long and adventuresome life he overcame great loss with courage and perseverance and ultimately was the recipient of many awards including the Jefferson Award Along with the text there are over 250 full page photos and illustrations

Ecology & Wonder in the Canadian Rocky Mountain Parks World Heritage Site Robert W. Sandford, 2010 Ecology and Wonder celebrates Western Canada's breathtaking landscape The book makes several remarkable claims The greatest cultural achievement in the mountain region of western Canada may be what has been preserved not what has been developed Protecting the spine of the Rocky Mountains will preserve crucial ecological functions Because the process of ecosystem diminshment and species loss has been slowed an ecological thermostat has been kept alive This may well be an important defence against future impacts of climate change in the Canadian West
