FAQ Warning

The radio receiver will stop if it is the FM band. Receiver is subject to the following two conditions: 1) The device may not receive certain frequencies, and 2) the device may accept any interference received, including interference that may cause audible distortion.

Caution: Changes in radiofrequency or magnetic exposure may be partly responsible for equipment noise and the device actually is capable of reception.

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not properly installed and used, may cause interference to other equipment. However, there is no guarantee that interference will not occur in a particular installation. This equipment does not have a shielded enclosure to fully shield the radio frequency energy, which can be determined by testing the equipment at home. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a different power outlet or a different branch circuit.
- Consult the dealer or an experienced radio/TV technician for help.

For more information, contact your local TV station technician. The above are not a warranty or liability for other parties.
