Bristows Heli:

Alan Bristow, Helicopter Pioneer Alan Bristow, Patrick Malone, 2010-03-10 You could be forgiven for taking Bristow's story as the invention of an action thriller writer. One of the best flying books you'll ever read. Pilot Magazine. Alan Bristow was a truly remarkable man. As a merchant navy officer cadet during the war, he survived two sinkings, played a part in the evacuation of Rangoon and was credited with shooting down two Stukas in North Africa. He joined the Fleet Air Arm and trained as one of the first British helicopter pilots, becoming the first man to land a helicopter on a battleship and Westland's first helicopter test pilot. He flew in France, Holland, Algeria, Senegal and elsewhere, narrowly escaping many helicopter crashes before winning the Croix de Guerre, evacuating wounded French soldiers in Indochina. For four years he flew for Aristotle Onassis's pirate whaling fleet in Antarctica before joining Douglas Bader and providing support services to oil drillers in the Persian Gulf. Out of that grew Bristow Helicopters Ltd, the largest helicopter company in the world outside America. Bristow's circle included the great helicopter pioneers such as Igor Sikorsky and Stan Hiller, test pilots like Harold Penrose and Bill Waterton, Sheiks and Shahs and political leaders, business giants like Lord Cayzer and Freddie Laker and the author James Clavell, a lifelong friend whose book *Whirlwind* was a fictionalized account of Bristow's overnight evacuation of his people and helicopters from revolutionary Iran. Bristow precipitated the Westland Affair when he made a takeover bid which eventually led to the resignation of Michael Heseltine and Leon Brittain and almost to the downfall of Margaret Thatcher. Has all the ingredients of a bestselling novel. Firetrench Helicopters and North Sea Oil Peter Saxton, 2023-11-23 A series of personal accounts by highly trained helicopter pilots including those with distinguished careers in the military and commercial flying who, with divers, ensured that essential staff could operate in North Sea oil exploration and oil supply. They were the vital link in the process and operated in the most challenging circumstances, often in high levels of danger and sometimes with loss of life, for example the Piper Alpha Disaster which made national news. And the ferrying of essential personnel and supplies could involve rescues as well as routine flying missions. The narrative is often technical but written to ensure good understanding for lay readers and it will, of course, appeal to the many with flying experience in the forces, in commercial flying and government service. Above all, it is a series of graphic personal stories as recounted by individuals faced with extremes of climate, weather, technical engineering and aeronautical problems and often with human life at stake. The people come to life and, with domestic and social concerns and interests, are real and believable people. It is history of the North Sea oil episode in UK political and economic history and in conjunction with international oil politics is of huge importance to Britain's economy. This is a period of progress to domestic oil independence by about 1984 and so a key period with subsequent importance even to the present. All aspects of the operations are covered within individual stories and include the broader questions of company policy, regulation and trade union involvement. Military Aircraft on Display Royston Morris, 2025-08-15 Royston Morris book features a broad range of military aircraft from the First World War right up

to the modern day which can be seen on display in the skies and on the ground in Britain From Borneo to Lockerbie Geoffrey Leeming,2013-06-19 A pilot discusses his missions around the world as he chronicles his career with Britain's Royal Air Force in the 1960s 70s and 80s In 1961 Geoffrey Leeming achieved his boyhood ambition to become a RAF pilot After a period as co pilot on the tanker variant of the Valiant bomber a sudden change of circumstances resulted in most of his subsequent service flying being as a helicopter pilot The helicopter most in use at this time was the Whirlwind a good aircraft but of limited performance and lacking the technical aids enjoyed by later types of helicopters He next flew in the little known Borneo Confrontation of the 1960s Living in primitive jungle bases alongside loyal and friendly natives the Whirlwind crews supported the land forces operating along the Indonesian border with long and hazardous flights over dense frequently uncharted jungle Most of the Author's remaining helicopter service was in the Search and Rescue role firstly from RAF Lossiemouth then from RAF Valley flying in the mountains and over the surrounding seas of the Scottish Highlands and Snowdonia Many lives were saved by Geoffrey and his crewmen in weather conditions frequently exceeding the safety limits in which they were supposed to operate His final postings were as an instructor and as commander of the Search and Rescue Training Unit at Valley This period culminated in his traumatic involvement in the immediate aftermath of the explosion of the Pan Am airliner over Lockerbie From Borneo to Lockerbie is an exciting flying memoir enhanced by the Author's natural modesty **Aircraft Engineering and Aerospace Technology** ,1992 *On the Wire* Dave Peel,2011-05-27 Since qualifying as a Royal Navy Search and Rescue Diver and Aircrewman at the beginning of the seventies I have operated from Warships North Sea oil rigs and UK SAR flights for nearly forty years This includes tours as the Chief Aircrewman on both military flights and civilian flights contracted to HM Coastguards The incredible camaraderie shared with the many crews I have worked with has helped me through awkward times and it has been a privilege to have worked with them all I have been honest with my feelings covering personal problems the fears faced on difficult jobs mistakes made in the early days despair during unsuccessful tasks and the euphoria felt after the many successful rescues Blowout Robert Orrell,2000 Robert Orrell recounts the brutality and immense danger of life on an oil rig Flight International ,1981 **North Sea Oil** Victor Gibson,2025-07-15 A fascinating history of the recovery of oil in the north sea written in a lively and accessible style by an expert former master mariner who worked in the fields for over a decade **They Gave Me a Helicopter** David Lanigan,2023-02-22 David Lanigan first flew in an aeroplane at the age of 12 at a local civilian flying training school This sparked a love for flying in the young man prompting him to learn to fly and join the RAF at age 18 what followed was a long and exceptional career in flying both with the RAF and with private companies Follow along as this young man from Dorset sees the world builds a family and saves lives all the while learning more and more about helicopters and life Front cover photo Team work is key SAR crew of pilot navigator and winchman returning from rescue training in Bridlington Bay Yorkshire 1970 In the background is a Westland Whirlwind Mk 10 which equipped UK based RAF SAR squadrons Back cover
