Counselling Skills for Health Professionals Philip Burnard, Jo Campling, 2013-11-11 This is the second edition of a book that I hope continues to be of practical value For counselling must always be that practical No amount of talking on its own can really make a difference if people do not end up doing something as a result of counselling The practical thread remains an important one throughout this edition Counselling Skills for Health Professionals is not just a how to do it book people are probably too complicated for that approach to be of much use Counselling is never simply a matter of learning a range of skills which you then apply in a range of settings In the end counselling is about facing the person in front of you listening to them carefully and then supporting them as they work through their problems For many problems there are no easy answers and counselling doesn't offer any quick fixes It is essentially a supportive process There are many things it cannot do It cannot change certain social and political situations It cannot cure diseases On the other hand what it can do is offer people more hope Often just the fact that there is someone who is prepared to hear your story and to listen to you is all that is needed I remain convinced that the key issue in all types of counselling is the ability to listen **A Beginner's Guide to Training in Counselling & Psychotherapy** Robert Bor, Stephen Palmer, 2001-09-25 This book will be of interest to anyone who may be considering training for a career in counselling and psychotherapy This text provides the reader with a considerable amount of information that may be used to select and hopefully successfully complete the right programme of study pertinent to their specific requirements It maintains a good balance of being honest about the often rigorous and intense task of completing training as well as being kindly reassuring that success can be achieved if approached in the right manner with sound advice being given throughout on how this may be carried out effectively Jacqueline A Lawrence
