Budget Justifications And Performance Information Fiscal Year 2015 Fish And Wildlife Service:

Budget Justifications and Performance Information Fiscal Year 2015 The U. S. Department Interior, 2015-06-24 The U S Fish and Wildlife Service Service is the oldest Federal conservation agency tracing its lineage back to 1871 The Service is the only agency in the Federal government whose primary responsibility is management of biological resources for the American public The Service helps ensure a healthy environment for people by providing opportunities for Americans to enjoy the outdoors and our shared natural heritage The Codex of the Endangered Species Act, Volume II Lowell E. Baier, John F. Organ, 2023-11-13 The Endangered Species Act of 1973 ESA is one of the most cherished and reviled laws ever passed It mandates protection and preservation of all the nation s species and biodiversity whatever the cost It has been a lightning rod for controversy and conflicts between industry business and environmentalists In this volume leading Endangered Species Act experts interpret and propose legislative and administrative changes to prepare the ESA for future challenges They explore regulations on avoiding harm to and producing benefits for species cooperation between state and federal agencies scientific analyses and the necessary politics to enact their ideas This is a call to action to chart an enlightened future for the Endangered Species Act that embraces the nation s moral commitment of 50 years ago to address species extinction constructively mindful of biodiversity and as a fixture among the nation s values and needs The interconnected web of life includes all living species that depend on each other for survival us among them The stakes our very future are too high to ignore **Saving Species on Private Lands** Lowell E. Baier, 2020-03-09 Winner Independent Press Award Conservation Green 2021 The only hope for successful conservation of America s threatened endangered and at risk wildlife is through voluntary cooperative partnerships that focus on private land where over 75% of at risk species can be found Private landowners form the bedrock of these partnerships and they have a long history of rising to meet the challenge of conservation But they can t do it alone This book is a guide for private landowners who want to conserve wildlife Whether engaged in farming ranching forestry mining energy development or another business private working lands all have value as wildlife habitat with the proper management and financial support This book provides landowners and their partners with a roadmap to achieve conservation compatible with their financial and personal goals This book introduces the art and language of land management planning as well as regulatory compliance with laws such as the Endangered Species Act of 1973 It categorizes and explains the tools used by wildlife professionals to implement conservation on private lands Moreover it documents the multitude of federal state local and private opportunities for landowners to find financial and technical assistance in managing wildlife from working with a local NGO to accessing the 6 billion per year available through the federal Farm Bill **Bombs Away** David G. Havlick, 2018-04-11 When viewed from space the Korean Peninsula is crossed by a thin green ribbon On the ground its mix of dense vegetation and cleared borderlands serves as home to dozens of species that are extinct or endangered elsewhere on the peninsula This is Korea s demilitarized zone one of the most dangerous

places on earth for humans and paradoxically one of the safest for wildlife Although this zone was not intentionally created for conservation across the globe hundreds of millions of acres of former military zones and bases are being converted to restoration areas refuges and conservation lands David G Havlick has traveled the world visiting these spaces of military to wildlife transition and in *Bombs Away* he explores both the challenges physical historical and cultural and fascinating ecological possibilities of military site conversions Looking at particular international sites of transition from Indiana's Big Oaks National Wildlife Refuge to Cold War remnants along the former Iron Curtain Havlick argues that these new frontiers of conservation must accomplish seemingly antithetical aims rebuilding and protecting ecosystems or restoring life while also commemorating the historical and cultural legacies of warfare and militarization Developing these ideas further he shows that despite the ecological devastation often wrought by military testing and training these activities need not be inconsistent with environmental goals and in some cases can even complement them a concept he calls ecological militarization A profound clear explication of landscapes both fraught and fecund marked by death but also reservoirs of life *Bombs Away* shows us how military activities conservation goals and ecological restoration efforts are made to work together to create new kinds of places and new conceptions of place

Inside the Equal Access to Justice Act Lowell E. Baier, 2015-12-17 Next Generation INDIE Book Awards Grand Prize Winner Best Non Fiction Book in 2017 and Winner in the Science Nature Environment category Finalist for Foreword INDIES Book of the Year Awards in Ecology and Environment In this book Lowell E Baier one of America's preeminent experts on environmental litigation chronicles the century long story of America's resources management focusing on litigations citizen suit provisions and attorneys fees He provides the first book length comprehensive examination of the little known Equal Access to Justice Act EAJA and its role in environmental litigation Originally intended to support veterans the disabled and small business the EAJA Baier argues now paralyzes America's public land management agencies Baier introduces readers to the history of EAJA examines the many beneficiaries of the law describes in depth 20 of the most prominent litigious environmental groups in America and recommends carefully tailored amendments to the EAJA to correct environmental abuses of the law while protecting legitimate interests *Inside the Equal Access to Justice Act* will be a valuable resource for the environmental legal community environmentalists practitioners at all levels of government and all readers interested in environmental policy and the rise of the administrative state

The Codex of the Endangered Species Act Lowell E. Baier, 2023-07-25 The Endangered Species Act of 1973 ESA is one of the most cherished and reviled laws ever passed It mandates protection and preservation of all the nation's species and biodiversity whatever the cost It has been a lightning rod for controversy and conflicts between industry business and environmentalists The year 2023 marks the 50th anniversary of this law and provides an opportunity for a measured and thorough evaluation thereof We cannot know today's challenges and opportunities without understanding their histories This book is the most comprehensive

history of the ESA ever published and the first to consider the entire history of the law from all angles in a single volume The history of the ESA has been one of increasing impact complexity and controversy In 1978 the Supreme Court declared that Congress intended for the U S government to save all species at any cost and thereafter application of the ESA became steadily more controversial as seen in the example of the northern spotted owl and the timber wars in the Pacific Northwest in the late 1980s and early 90s and then everywhere as the ESA became a political football in the highly partisan environment of the late 1990s and amendments to the law ceased This book is not only a history but a call to action It will take more conservation more funding and more innovative solutions if we are to save our wildlife and biodiversity It will take the engagement to every American to muster the collective will to meet this challenge The hope of this book is that we will be able to look back and say that we accomplished more in the second 50 years of the ESA than we did in the first *Interior, Environment, and Related Agencies Appropriations for 2015* United States.
