doctors and nurses but particularly by the clinical scientists including embryologists who now provide such an essential part of the service Similarly the provision of the clinical service has been examined in detail from a variety of standpoints in an attempt to make sensible recommendations which balance real need with limited resource The book is based on the papers presented and discussed at the 25th RCOG Study Group held in April 1992 The discussion after each paper was civilised but uncompromising and forms an important part of this publication The rapid processing of the written and recorded material by the staff at the RCOG and particularly Miss Sally Barber has ensured that the book has been produced while the issues are live the reviews contemporary and the discussion relevant
