Building Communication Theory 4th Edition:

An Introduction to Communication Studies Sheila Steinberg, 2007 In this introductory textbook the author contextualises approaches and theories on communication studies by making use of local examples from the mass media as well as relevant political and social experiences The book is divided into two parts The first provides students with a strong foundation in communication while the second focuses on the areas of specialisation within communication studies Each chapter starts with the learning Outcomes and a short overview of the chapter Students can monitor their learning by using the summaries and test yourself questions at the end of every chapter Scenarios provide examples of how the theory can be applied in practice This makes for a learner friendly and accessible book which will prove invaluable to Students and professionals alike Beginner students majoring in Communication Studies as well as those studying towards various degrees or qualifications where communication is a prerequisite will find this book useful

Theorizing Communication Robert T. Craig, Heidi L. Muller, 2007-04-05 Presents the collection of primary source readings built around the idea that communication theory is a field with an identifiable history and has developed within seven main traditions of thought the rhetorical semiotic phenomenological cybernetic sociopsychological sociocultural and critical traditions

Building Communication Theory Dominic A. Infante, Andrew S. Rancer, Deanna F. Womack, 2003 The authors have organized this book to help students learn the process of theory building In clear engaging and comprehensible language they offer a solid foundation for understanding four perspectives on communication Rather than presenting theories in isolation they discuss major theories within the structure of a particular approach and provide examples of the contributions each theory has made to explaining and predicting behavior If a student develops criteria by which to judge a theory that critical framework can be applied to assess the strengths and weaknesses of any new theory Confidence in evaluating contributions helps students appreciate and participate in the process The connections between theorizing and practical applications stimulate interest and further exploration The text does not attempt to be encyclopedic rather it offers a synthesized coherent view of theory from the social scientific perspective emphasizing contributions from communication theorists Learning about theory should be an enjoyable experience Building Communication Theory creates a context for involving students in an exciting and valuable pursuit

The Handbook of Global Interventions in Communication Theory Yoshitaka Miike, Jing Yin, 2022-03-10 Moving beyond the U S Eurocentric paradigm of communication theory this handbook broadens the intellectual horizons of the discipline by highlighting underrepresented especially non Western theorists and theories and identifies key issues and challenges for future scholarship Showcasing diverse perspectives the handbook facilitates active engagement in different cultural traditions and theoretical orientations that are global in scope but local in effect It begins by exploring past efforts to diversify the field continuing on to examine theoretical concepts models and principles rooted in local cumulative wisdom It does not limit itself to the mass interpersonal communication divide but rather seeks to frame theory as global and inclusive

in scope The book is intended for communication researchers and advanced students with relevance to scholars with an interest in theory within information science library science social and cross cultural psychology multicultural education social justice and social ethics international relations development studies and political science

Encyclopedia of Communication Theory Stephen W. Littlejohn, Karen A. Foss, 2009-08-18 With more than 300 entries these two volumes provide a one stop source for a comprehensive overview of communication theory offering current descriptions of theories as well as the background issues and concepts that comprise these theories This is the first resource to summarize in one place the diversity of theory in the communication field Key Themes Applications and Contexts Critical Orientations Cultural Orientations Cybernetic and Systems Orientations Feminist Orientations Group and Organizational Concepts Information Media and Communication Technology International and Global Concepts Interpersonal Concepts Non Western Orientations Paradigms Traditions and Schools Philosophical Orientations Psycho Cognitive Orientations Rhetorical Orientations Semiotic Linguistic and Discursive Orientations Social Interactional Orientations Theory Metatheory Methodology and Inquiry

A Speaker's Guidebook with The Essential Guide to Rhetoric Dan O'Hair, Rob Stewart, Hannah Rubenstein, 2011-10-26 A Speaker's Guidebook is the best resource in the classroom on the job and in the community Praised for connecting with students who use and keep it year after year this tabbed comb bound text covers all the topics typically taught in the introductory course and is the easiest to use public speaking text available In every edition hundreds of instructors have helped us focus on the fundamental challenges of the public speaking classroom Improving on this tradition the fifth edition does even more to address these challenges with stronger coverage of overcoming speech anxiety organizing and outlining and more And as the realities of public speaking change so does A Speaker's Guidebook the new edition also focuses on presentational speaking in a digital world from finding credible sources online to delivering presentations in a variety of mediated formats
