A School Leaders Guide To Standards Based Grading:

A School Leader's Guide to Standards-Based Grading Tammy Heflebower, Jan K. Hoegh, 2014-05-30 Accurately report students academic strengths and weaknesses with standards based grading Rather than using traditional systems that incorporate nonacademic factors such as attendance and behavior learn to assess and report student performance based on prioritized standards You will discover reliable practical methods for analyzing what students have learned and gain effective strategies for offering students feedback on their progress **School Leaders Guide to Standards-Based Grading**

Tammy Heflebower, Jan Hoegh, Phil Warrick, 2014-05-23 A School Leader's Guide to Standards Based Grading by Tammy Heflebower Jan K Hoegh and Phil Warrick with Mitzi Hoback Margaret McInteer and Bev Clemens offers a reliable framework for analyzing student learning and providing students and stakeholders with effective feedback on student progress This guide not only articulates significant research supporting standards based grading as an accurate precise and effective way to report academic strengths and weaknesses but also shares applicable anecdotes from educators implementing its components The authors detail specific procedures processes and systems necessary for implementation In chapter 1 readers will learn the differences between standards based grading and standards referenced grading and address why grading practices should change Chapter 2 explains how teachers can prioritize standards and create proficiency scales Chapter 3 helps readers design assessments based on the standards and scales Chapter 4 guides readers through the grading process Chapter 5 addresses the role of exceptional learners students with special needs English learners and gifted and talented students in the assessment process Finally chapter 6 provides a big picture view to help school leaders implement standards based grading school or districtwide Each chapter also includes real life accounts from teachers principals superintendents and other educators who have applied standards based grading in their schools *A School Leader's Guide to Standards-Based Grading*, 2025-02 SOT0035 **Cultural Literacy for the Common Core** Bonnie M.

Davis, 2014-07-08 Build your cultural literacy while inspiring deep thoughtful unbiased thinking in students Discover a six step framework for becoming culturally literate that complements the Common Core and encourages students to be at the center of learning Explore how to develop teacher student relationships engage in collaborative conversations and encourage feedback to give voice to the increasingly diverse student body found in today's classrooms The School Leader's Guide to Grading Ken O'Connor, 2012-12-04 Ensure your school's grading procedures are supportive of learning accurate meaningful and consistent Discover how the seven essential Ps can improve your effectiveness in supporting assessment and communicating student achievement You will also learn how to avoid inaccurate grades caused by penalties for lateness or academic dishonesty extra credit group rather than individual work and marking down for attendance *The*

Standards-Based Classroom Emily Rinkema, Stan Williams, 2018-08-10 Win big in the standards based classroom Standards Based Learning SBL is NOT standardization In fact when we recognize the central purpose of SBL which is to make learning

the goal for all students we can design systems and structures that are more personal more flexible and more engaging for us and for our students At its core SBL simply asks us to organize our teaching and learning around three questions These questions guide the creation of targets the development of assessments the instructional planning and the systems to communicate learning Where do we want our learners to go How do we know where our learners are in relation to where we want them to go How do we move them from where they are towards or beyond where we want them to be While simple at the core the transition to a standards based classroom is anything but The complexity comes in the implementation the integration into existing systems and the difficult task of moving away from what s most comfortable The Standards Based Classroom provides practical strategies and steps based on many years of both failures and successes to support educators during this transition to a standards based system The accessible and concrete examples tools and templates in the book can be adapted into any classroom Teachers who are new to SBL will understand the parts experienced teachers will see the connections to current practices and all educators will realize the potential SBL has to transform learning

Partnering With Parents in Elementary School Math Hilary Kreisberg,Matthew L. Beyranevand,2021-02-03 How to build productive relationships in math education I wasn t taught this way I can t help my child These are common refrains from today s parents and guardians who are often overwhelmed confused worried and frustrated about how to best support their children with what they see as the new math The problem has been compounded by the shift to more distance learning in response to a global pandemic *Partnering With Parents in Elementary School Math* provides educators with long overdue guidance on how to productively partner and communicate with families about their children s mathematics learning It includes reproducible surveys letters and planning documents that can be used to improve the home school relationship which in turn helps students parents teachers and education leaders alike Readers will find guidance on how to Understand and empathize with what fuels parents anxieties and concerns Align as a school and set parents expectations about what math instruction their children will experience and how it will help them Communicate clearly and productively with parents about their students progress strengths and needs in math Run informative and fun family events support homework Coach parents to portray a productive disposition about math in front of their children Educators families and students are best served when proactive productive and healthy relationships have been developed with each other and with the realities of today s math education This guide shows how these relationships can be built

Charting a Course to Standards-Based Grading Tim Westerberg,2016-08-24 What s the best way to ensure that grading policies are fair accurate and consistent across classrooms How can schools transition to a grading system that better reflects what students are actually learning Tim R Westerberg makes this journey easier by offering a continuum of options with four destinations on the road to improved grading and assessment Destination 1 critically examines such popular grading mechanisms as the zero extra credit the semester killer project averaging mixing academic performance with work ethic and refusing to accept late work and

explains how they undermine objectivity and instead result in widely divergent grades for comparable work with major consequences for students Destination 2 invites educators to put assessment and grading into the larger context of a districtwide guaranteed and viable curriculum and lays out the organizational conditions and necessary steps to accomplish this goal Destination 3 brings parents and others on board with a multiyear implementation plan and community engagement strategies for introducing report cards that indicate student achievement by standards rather than or in addition to letter grades Destination 4 competency based education involves a total rethinking of the nature and structure of school leading to individualized education for all students However far they choose to go administrators and teacher leaders can turn to Charting a Course to Standards Based Grading for the quick wins and long term support and guidance they need to make the trip well worth the effort
