Paul D. Collins, Phillip D. Collins

Beyond The End Of The World 2012 And Apocalypse:

Beyond the End of the World - 2012 and apocalypse Will Black, 2010-10 This book cuts through rampant misinformation circulating about 2012 to present a coherent understanding of the Mayan calendar and the significance of the date As an anthropologist and journalist Will Black has conducted research into 2012 millenarianism for several years He consequently offers a much broader and clearer picture than other books on the subject In their haste to jump onto the 2012 bandwagon most authors seem to have forgotten that the Maya are a real people often living in as violently precarious circumstances as their ancestors Will Black demolishes fantasies about crumbling calendar stones before examining the brutal cocaine wars blighting Central America The hedonistic world of many westerners who have become interested in 2012 is contrasted sharply with the lives of ancient and modern Maya The extraordinary world of shamans is contrasted with that of New Age seekers Information about key visionary substances is offered

Restorative Redevelopment of Devastated Ecocultural Landscapes Robert L. France, 2016-04-19 A fusion of ecological restoration and sustainable development restorative redevelopment represents an emerging paradigm for remediating landscapes Rather than merely fixing the broken bits and pieces of nature restorative development advocates the reuse of devastated landscapes to improve the value and livability of a location for humans at the

Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a

technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

Death, the End of History, and Beyond Greg Carey, 2023-01-31 What happens at the end of our lives and of the course of history Will God bring about a just and peaceful world What lies beyond this realm and what can we know of the beings who

dwelling there In *Death the End of History and Beyond* Greg Carey offers resources for understanding multiple even conflicting ways that the Bible imagines these ultimate realities Carey opens the Scriptures with a breadth of insight that acknowledges its diversity of viewpoints about what lies beyond the veil centering hope in God's action to bring good out of evil in our lived realities in our personal journeys through death and in visions of resurrection and justice restored An appendix on preaching also invites clergy to help their communities imagine when and how eschatology can inform our lives today

A History of the Apocalypse Catalin Negru, 2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history

The Art of Political Storytelling Philip Seargeant, 2020-05-14 In our post truth world tapping into people's emotions has proved far more effective than rational argument and as Philip Seargeant argues in this illuminating and entertaining book the most powerful tool for manipulating emotions is a gripping narrative From Trump's America to Brexit Britain weaving a good story featuring fearless protagonists challenging quests against seemingly insurmountable odds and soundbite after soundbite of memorable dialogue has been at the heart of political success So does an understanding of the art of storytelling help explain today's successful political movements Can it translate into a blueprint for victory at the ballot box *The Art of Political Storytelling* looks at how stories are created shared and contested illuminating the pivotal role that persuasive storytelling plays in shaping our understanding of the political world we live in By mastering the tools and tricks of narrative and evaluating the language and rhetorical strategies used to craft and enact them Seargeant explains how and why today's combination of new media populism and partisanship makes storytelling an ever more important part of the persuasive and political process In doing so the book offers an original and compelling way of understanding the chaotic world of today's politics

Pyramid of Fire: The Lost Aztec Codex John Major Jenkins, Martin Matz, 2004-11-03 The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012 Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle Presents the only existing English language transcription of the Aztec codex with line by line commentary Contains the epic poetry and metaphysical insights of Beat poet Marty Matz 1934-2001 In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca Mexico Originally intended for dramatic performance this codex presents a profound metaphysical

teaching describing how the end of time will bring about a visionary ascent At the behest of his Mazatec teacher Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience Pyramid of Fire is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the serpent of consciousness Line by line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times **BEYOND GODS**

AND SCRIPTURES Joseph Mani, 2018-05-07 Religion has been the biggest divisive force in history This book examines the irrational and harmful beliefs of religious people which lead to religion becoming a destructive force Religion can be and has been a force for good too What are the aspects of religion that make it meaningful Does God exist The book details the scientific and philosophical arguments adduced for God's existence and how valid they are In the last section we look at five luminaries of science who either had close encounters with religious establishments or had strong views on religion and God We look at the lives of Copernicus Galileo Newton Einstein and Hawking not so much as scientists but as human beings with their own kinks and idiosyncrasies The author brings to this book his extensive knowledge of physics philosophy religion and the behavioural sciences

Enjoying the Song of Phrase: An Emotional Symphony within **Beyond The End Of The World 2012 And Apocalypse**

In a world taken by displays and the ceaseless chatter of instant conversation, the melodic splendor and mental symphony produced by the prepared term frequently diminish into the background, eclipsed by the persistent sound and disturbances that permeate our lives. However, situated within the pages of **Beyond The End Of The World 2012 And Apocalypse** a stunning fictional prize brimming with organic emotions, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, that fascinating masterpiece conducts viewers on a mental trip, well unraveling the concealed tunes and profound influence resonating within each cautiously constructed phrase. Within the depths of the moving analysis, we can discover the book is main harmonies, analyze its enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
