

BEYOND ARCHITECTURE

IMAGINATIVE BUILDINGS AND FICTIONAL CITIES

Beyond Architecture is the first publication of its kind to document the creative exploration of architecture and urban propositions in the contemporary arts. It demonstrates how not only architects and designers but also artists are taking architecture as a starting point for experimentation. Co-edited by Lukasz Patkowiak, this book features contributions by renowned international artists, ranging from performance, installation art

and crafted sculptures to grid cultural systems, alternative ideas for living spaces and habitats, as well as illustration, painting, collage and photography. Through stunning photographs and incisive texts, these visionary concepts reveal how the interplay between architecture and visual culture will pave the future aesthetic and shape the development of architectural practices and urban landscapes in the decades to come.

Beyond Architecture Robert Klanten, Lukas Feireiss, 2009 Beyond Architecture is the first publication of its kind to document the creative exploration of architecture and urban propositions in the contemporary arts The projects collected in this book demonstrate how not only architects and designers but also artists are taking architecture as a starting point for experimentation They range from performance installation art and crafted sculptures to architectural models alternative ideas for living spaces and furniture as well as illustration painting collage and photography Through stunning photography visuals and complementary texts these visionary concepts reveal the hidden creative potential for architecture and urban environments in inventive ways

Speculative Everything, With a new preface by the authors Anthony Dunne, Fiona Raby, 2024-04-02 How to use design as a tool to create not only things but ideas to speculate about possible futures Today designers often focus on making technology easy to use sexy and consumable In Speculative Everything Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas For them design is a means of speculating about how things could be to imagine possible futures This is not the usual sort of predicting or forecasting spotting trends and extrapolating these kinds of predictions have been proven wrong again and again Instead Dunne and Raby pose what if questions that are intended to open debate and discussion about the kind of future people want and do not want Speculative Everything offers a tour through an emerging cultural landscape of design ideas ideals and approaches Dunne and Raby cite examples from their own design and teaching and from other projects from fine art design architecture cinema and photography They also draw on futurology political theory the philosophy of technology and literary fiction They show us for example ideas for a solar kitchen restaurant a flypaper robotic clock a menstruation machine a cloud seeding truck a phantom limb sensation recorder and devices for food foraging that use the tools of synthetic biology Dunne and Raby contend that if we speculate more about everything reality will become more malleable The ideas freed by speculative design increase the odds of achieving desirable futures

Narrative Architecture Nigel Coates, 2012-12-12 The first book to look at architectural narrative in the eye Since the early eighties many architects have used the term narrative to describe their work To architects the enduring attraction of narrative is that it offers a way of engaging with the way a city feels and works Rather than reducing architecture to mere style or an overt emphasis on technology it foregrounds the experiential dimension of architecture Narrative Architecture explores the potential for narrative as a way of interpreting buildings from ancient history through to the present deals with architectural background analysis and practice as well as its future development Authored by Nigel Coates a foremost figure in the field of narrative architecture the book is one of the first to address this subject directly Features architects as diverse as William Kent, Antoni Gaudí, Eero Saarinen, Ettore Sottsass, Superstudio, Rem Koolhaas and FAT to provide an overview of the work of NATO and Coates as well as chapters on other contemporary designers Includes over 120 colour photographs Signposting narrative's significance as a design approach that can aid architecture to remain relevant in this complex multi-disciplinary and multi-everything age Narrative Architecture is a must read for anyone with an interest in architectural history and theory
