e-Conquer Creative Writing For Primary Levels 5 Benjamin Lee, 2012-05-14 CONQUER CREATIVE WRITING BOOK 5 consists of units covering four areas all of which aim to strengthen a student's writing ability. It provides students with situations outside their normal classroom learning, inviting them to stretch their imagination and express their thoughts through writing, thus enabling them to enjoy and be creative in writing. In this book, students will learn to write descriptive, narrative, expository, and imaginative compositions, differentiate and organize ideas using the methods of classification, comparison, and contrast, sequencing, and cause and effect, relate to a given situation and its possible outcomes, and think and write creatively. Students will find the exercises interesting and the open-ended questions challenging. They are expected to do research on their own for exercises that require background knowledge. They can do so using the Internet or encyclopedia. It is our desire that students who have completed this series will find themselves equipped to discuss issues beyond their years.

Towards a Poetics of Creative Writing Dominique Hecq, 2015 This book offers an in-depth study of the poetics of creative writing as a subject in the dramatically changing context of practice as research, taking into account the importance of the subjectivity of the writer as researcher. It explores creative writing and theory while offering critical antecedents, theoretical directions, and creative interchanges. The book narrows the focus on psychoanalysis, particularly with regard to Lacan, and creative practice and demonstrates that creative writing is research in its own right. The poetics at stake neither denotes the study or the techniques of poetry but rather the means by which writers formulate and discuss attitudes to their work.

Exploring Creativity Through Writing Alan Maley, Sharon Sunny, 2025-08-01 The book explores the nature of human creativity and its importance in education with reference to past and ongoing work on creativity theory. It aims to direct the attention of teachers to the need for creativity in education by dispelling the mystique surrounding it and the feelings of inadequacy or apprehension it may evoke in educators, particularly in the Asia region. The book offers an introduction to creativity in writing, the rationale for including it in language programmes, the benefits it can bestow, and the results it can produce, as well as dealing with common objections to it. It divides creative writing into two major sections: poetry and stories, followed by a copious set of varied classroom activities. For each activity, a standard format is adopted to offer teachers maximum support in implementing the procedures, including supplementary comments on each activity. It is distinct for its accessibility and clarity, its abundance of practical and ready-to-use classroom activities, and its unique combination of theoretical underpinnings and practical implementation. This book will be useful to students, pre-service teachers, and researchers who are new to the teaching of English Language, both in the Asian context and in the wider world. It will also be an essential companion to practicing in-service teachers and Teacher Trainers to further sharpen their concepts and skills.
