The Documentary Handbook Peter Lee-Wright, 2009-12-04 The Documentary Handbook is mandatory reading for those who want a critical understanding of the place of factual formats in today's exploding television and media industry as well as expert guidance in complex craft skills in order to fully participate. The practical advice and wisdom here is second to none. Tony Steyger, Principal Lecturer Southampton Solent University UK. The Documentary Handbook is a critical introduction to the documentary film, its theory and changing practices. The book charts the evolution of documentary from screen art to core television genre, its metamorphosis into many different types of factual TV programme and its current emergence in forms of new media. It analyses those pathways and the transformation of means of production through economic, technical and editorial changes. The Documentary Handbook explains the documentary process, skills and job specifications for everyone from industry entrants to senior personnel and shows how the industrial evolution of television has relocated the powers and principles of decision making. Through the use of professional Expert Briefings, it gives practical pointers about programme making from research, developing and pitching programme ideas to their production and delivery through a fast evolving multi platform universe.

The Psychological Effects of Immigrating Robert Tyminski, 2022-09-09 Exploring immigration from psychological, historical, clinical and mythical perspectives, this book considers the varied and complex answers to questions of why people immigrate to entirely new places and leave behind their familiar surroundings and culture. Using research, reviews, extensive case material and literary examples such as Virgil's *The Aeneid*, Robert Tyminski's work will deepen readers' understanding of what is both unique and universal about migratory experiences. He addresses the negative consequences of xenophobia, the acculturation experiences of children compared to adults, the trauma and psychological issues that arise when seeking refuge or relocating to a new country and the more recent implications of COVID 19 upon border crossings. Tyminski also re-evaluates the term identity as a psychological shorthand, suggesting that it can flatten our understanding of human complexity and erase migrant and refugee life stories and differences. As one of few books to investigate immigration from a Jungian oriented perspective, Robert Tyminski's work offers a new and broad perspective on the mental health issues related to immigration. This book will prove essential for clinicians working with refugees and migrants when in training and in practice as well as students and practitioners of psychoanalysis seeking to deepen their understanding of migratory experiences.

The War on History Jarrett Stepman, 2019-10-01 The War on Our History: Confederate memorials toppled, Columbus statues attacked with red paint. They started with slave owning Confederate generals but they're not stopping there. The vandals are only pretending to care about the character of particular American heroes. In reality, they hate what those heroes represent, the truths asserted
