SAS Col. Thomas A. Hillary, 2009-10-07 This book provides an in sight into my lifetime experiences from birth to the present day It also concentrates thoroughly on defining the qualities desired of an SAS military leader In terms of personal experiences of leadership I would say that the military provided me with a blueprint of acceptable leadership behaviours Looking at the training I went through with Special Forces reveals some of the unique qualities that are required to fulfil this role I would say that conventional military regiments differed somewhat to the democratic even abdicratic approach of Special Forces units such as the SBS SAS and 2REP French Foreign Legion While I was serving with the Marines I wanted to transfer to a Special Forces unit but was refused entry to the organisation because of my commitment to the Marines This was a great issue at the time but I eventually rejoined the SAS regiment anyway after resigning from the Marines My first period of SAS training followed passing of the usual Battle Fitness Test BFT that was

completed while at a barracks off the King s Road in Chelsea I can explain that my first thoughts about joining the SAS occurred in 1976 when I was serving as a junior guardsman at Pirbright in Surrey The inspiration came from my platoon commander who had previously been a member of the Guards Independent Parachute Brigade This was a unit that largely preceded G Squadron of the SAS Regiment Later actions then included the Iranian embassy incident under direction of the Counter Revolutionary Warfare CRW team and patrols in areas of Northern Ireland that were subject to violent terrorist actions I served also with 23 and 21 between 1985 and 1992 and the Scots Guards and French Foreign Legion experiences came early in my career

Archaeology's Visual Culture Roger Balm, 2015-12-14 Archaeology s Visual Culture explores archaeology through the lens of visual culture theory The insistent visibility of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style and reflect fundamental visual sensibilities within the discipline of archaeology
