Beyond The Mask Gordon Craig Movement And The Actor:

Beyond the Mask Irène Eynat-Confino, 1987 Eynat Confino goes beyond the usual consideration of Craig's purported theories of the actor, scenery and the scene painter to get at the heart of Craig's idea of theater. She draws not only on the research of contemporary Craig scholars but on material hitherto unavailable: his writings and daybooks and the writings of friends. She ties Craig's encounter with Isadora Duncan to a decisive modification in his notion of movement. To have an instrument more controllable than the actor, he invented the *marionette*, a giant puppet. Craig also invented the *Scene*, a kinetic stage. The screens that brought him worldwide fame were simply an adaptation of this concept. Eynat Confino argues that a scenario Craig wrote in 1905, here published for the first time, reveals a theosophical system like that of Blake, a system that was the main force motivating Craig's artistic quest. In her final chapter, she carefully examines the psychological, aesthetic and circumstantial factors that kept Craig from completing his work to bring friendliness, humor, love, ease, peace to the world.

This long-awaited edition brings together for the first time 366 letters, cards and telegrams exchanged between Craig and his patron, the cosmopolitan Count Kessler. An important primary source, illuminated by Dr. Newman's commentary, it focuses on three areas of particular importance: 1. Craig's artistic ideas and the spread of his influence through exhibitions and books; proposals are developed for work with Otto Brahm, Eleonora Duse, Max Reinhardt, Henry van de Velde, Eduard Verke, Leopold Jessner, Dyaghilev, Beerbohm Tree, C. B. Cochran and others. 2.
