Foreign Terrorists in America United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Technology, Terrorism, and Government Information, 1998 **Twenty-First-Century Gothic** Wester Maisha Wester, 2019-05-22 A transnational and transmedia companion to the post millennial Gothic Key Features Covers key areas and themes of the post millennial Gothic as well as developments in the field and revisions of the Gothic tradition Constitutes the first thematic compendium to this area with a transmedia literature film and television and transnational approach Covers a plurality of texts from novels such as Stephenie Meyer's *Twilight* 2005 Helen Oyeyemi's *White Is for Witching* 2009 Justin Cronin's *The Passage* 2010 and M R Carey's *The Girl with All the Gifts* 2014 to films such as *Kairo* 2001 *Juan of the Dead* 2012 and *The Darkside* 2013 to series such as *Dante's Cove* 2005 *7 Hemlock Grove* 2013 *15 Penny Dreadful* 2014 *16 Black Mirror* 2011 and even the Slenderman mythos This resource in contemporary Gothic literature film and television takes a thematic approach providing insights into the many forms the Gothic has taken in the twenty first century The 20 newly commissioned chapters cover emerging and expanding research areas such as digital technologies queer identity the New Weird and postfeminism They also discuss contemporary Gothic monsters including zombies vampires and werewolves and highlight Ethnogothic forms such as Asian and Black Diasporic Gothic Anti-Immigrantism in Western Democracies Roxanne Lynn Doty, 2003-09-02 This book critically examines the various practises of anti immigrantism in the US the UK and France within the context of globalisation and questions our understanding of the state **They're Not Listening** Ryan James Girdusky, Harlan Hill, 2020-06-16 The election of Donald Trump in America and the referendum on European Union membership in the United Kingdom otherwise known as Brexit sent shockwaves throughout the world Cosmopolitan elites across the globe never saw this populist uprising coming and still do not understand it People across the globe have been increasingly voting for national populist politicians over the last twenty years The current nationalist populist revolt started long before Donald Trump came down his golden escalator and even before Prime Minister David Cameron agreed to hold a referendum vote on the EU It wasn't isolated to rundown towns in Northern England or the Midwest and it wasn't solely because of demographic changes ignorance intolerance or a whitelash It was occurring because the elites chose to ignore voters concerns when it came to globalism and neoliberalism Issues like mass immigration war economic inequality and national sovereignty were sacrosanct to neoliberals and ultimately their unwillingness to concede on these issues built discontent among millions of people **Migrants, Borders and Global Capitalism** Hannah Cross, 2013-04-17 People from West Africa are risking their lives and surrendering their citizenship rights to enter exploitative labour markets in Europe This book offers an explanation for this phenomenon that is based on close analysis of the contradictory economic and political agendas that create and constrain labour migration It shows how global capitalism regulates different stages of the process within an interconnected system of economic dispossession the construction of an illegal status border control labour

exploitation and processes of underdevelopment This is summarised as a regime of unfree labour mobility Combined with structural and historical approaches this book is based on ethnographic research It incorporates those who are left behind those who decide to stay migrants who fail and those who are on the move alongside clustered migrant communities in Senegal Mauritania and Spain The book s panoramic approach shows how West African step wise journeys to Europe by land and sea sees competing territorial and economic policies regulating an unstable and unpredictable trajectory creating illegal labour through dual logics of border security and selective labour mobility This book demonstrates that the diverse channels through which people migrate in the modern era are mediated by European states and labour markets which utilise border regimes to control labour and be globally competitive The themes and patterns that emerge in their context of inter generational change present a challenge to the accepted wisdom about the individual and household dynamics of labour migration This book is of interest to students and scholars of migration transnationalism politics security development economics and sociology

A New Kind of Containment, 2009-01-01 This book addresses containment as it relates to interlocking discourses around the War on Terror as a global effort and its link to race and sexuality within the United States The project emerged from the recognition that the events of 11 September 2001 prompted new efforts at containment with both domestic and international implications

Mediterranean in Dis/order Rosita Di Peri, Daniel Meier, 2023-03-07 Mediterranean in Dis order reveals the connection between space and politics by examining the role that space has played in insurgencies conflicts uprisings and mobilities in the Mediterranean region With this approach the authors are able to challenge well established beliefs about the power structure of the state across different disciplines including political science history sociology geography and anthropology and its impact on the conception production and imagination of space in the broader Mediterranean Further they contribute to particular areas of studies such as migration political Islam mobilization and transition to democracy among others The book infusing critical theory unveils original and revelatory case studies in Tunisia Libya Lebanon Turkey Syria Morocco and the EU Mediterranean policy through a various set of actors and practices from refugees and migrations policies to Islamist or students movements architectural sites or movies This multidisciplinary perspective on space and power provides a valuable resource for practitioners interested in how space context and time interact to produce institutions political subjectivities and asymmetries of power particularly since the turning point of the Arab uprisings The book also helps readers understand the conditions under which the uprisings develop giving a clearer picture about various national regional and international dynamics
