Sport Practice and Physical Activity - The Social Function of Sport in Contemporary Societies Juan Carlos Martin, Pedro Moreira Gregori, 2025-10-27 Sport and physical activity represent fundamental aspects in shaping healthy, dynamic, and cohesive societies. Sport is not only a recreational activity but a vital element that influences health, education, social inclusion, and local development. This interest is reflected in various policies and programs that seek to encourage greater participation and equitable access to sports and physical activity. The proposed Research Topic aims to address the complex interaction between sports practice, physical activity, active living, walking, mobility, and the barriers and factors that influence people to be active. This multifaceted topic becomes crucial for understanding how social structures, urban design, personal motivation, and policy interventions can facilitate or impede active lifestyles. This has highlighted the importance of designing cities that support active living. However, despite this knowledge, there is still a substantial gap in knowledge about the specific barriers that dissuade people from participating in sports and physical activity.
