Catholic Education in the Wake of Vatican II Rosa

Bruno-Jofré, Jon Igelmo Zaldívar, 2017-01-01 Catholic Education in the Wake of Vatican II is the first work dedicated to the effects of the Second Vatican Council on catholic education in various national and cultural contexts **The Catholic Dialogue School** Lieven Boeve, 2025-10-16 Based on diligent theological work and practical experience Boeve explores how Catholic schools can reconfigure their identity in an increasingly secular and pluralised world At a time when Christian values education has lost its plausibility and effectiveness this work examines how a wider Catholic dialogue school project would welcome the plurality of beliefs among its staff and students actively facilitate dialogue between them and introduce the Christian voice into this dialogue in a contemporary and challenging way This book offers chapters on the theological background of the project and its social relevance With empirical evidence and case studies from across the world Boeve dextrously analyses the practical implication of these Catholic dialogue schools The processes of secularisation and pluralisation have changed school demographics and this has affected the construction of both individual and collective identities In response to this changed context this work shows how the Catholic dialogue school project actively engages with such identity construction The book concludes by considering whether recent Church teaching supports this project and how it can strengthen the position of Catholic education in discussions about its legitimacy in contexts of soft secularism and shrinking educational freedom **Faith, Mission and Challenge in Catholic Education** Gerald Grace, 2015-09-25 In the World Library of Educationalists international experts compile career long collections of what they judge to be their finest pieces extracts from books key article salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands and see how their work contributes to the development of the field Gerald Grace is renowned internationally for his research and teaching in the areas of Catholic education spirituality leadership and effectiveness in faith schooling and educational policy In Faith Mission and Challenge in Catholic Education Gerald Grace brings together 15 of his key writings in one place Starting with a specially written Introduction which gives an overview of his career and contextualises his selection within the development of the field the chapters cover the interactions of faith mission and spirituality in the development of Catholic education how to replace ideology polemic and prejudice in discussions about faith based schooling with evidence based argument understanding the distinctive nature of concepts such as leadership and effectiveness in faith based education using mission integrity as a key concept for the evaluation of contemporary Catholic schooling examining the interactions of Catholic values Catholic curriculum and educational policy developments This book not only shows how Gerald Grace s thinking developed during his career it also gives an insight into the development of the fields to which he contributed Catholic Educational Review Edward Aloysius Pace, Thomas Edward Shields, 1915
