estudantes profissionais e gestores de saúde de ideias e reflexões para reconhecer e enfrentar a violência como grave problema de saúde pública. A obra contextualiza a violência na realidade brasileira, aborda a história da incorporação do tema na agenda do setor saúde e discute a importância de uma política para a área. Destaca como a família, a escola, a comunidade e a mídia podem e devem ser alvos de medidas de prevenção à violência. De modo didático, descreve cenas e casos de violência que chegam aos serviços de saúde e em seguida oferece textos para reflexão e outras sugestões de leitura de modo que os profissionais possam se preparar para lidar com situações semelhantes. Dessa forma, são estudados e discutidos temas como crianças e adolescentes em situações de violência, formas de institucionalização tradicionalmente reconhecidas pelas relações de violência, violência no trabalho e violência contra pessoas portadoras de deficiência, mulheres e idosos. Completam a obra um passo a passo para um diagnóstico situacional da violência, uma proposta para a elaboração de um plano local de promoção, prevenção e atenção às situações de violências e acidentes e exemplos de avaliação de programas e ações nesse campo.
