Post-Metropolitan Territories Alessandro Balducci, Valeria Fedeli, Francesco Curci, 2017-01-20 Processes of multi scalar regional urbanization are occurring worldwide Such processes are clearly distinguishable from those of the nineteenth and twentieth centuries due to the shifting concepts of both the city and the metropolis International literature highlights how what we have historically associated with the idea of cities has long been subjected to consistent reconfiguration which involves stressing some of the typical features of the idea of cityness Post Metropolitan Territories Looking for a New Urbanity is the product of a research project funded by the Italian Ministry for Education Universities and Research MIUR It constitutes a thorough overview of a country that is one of Europe s most diverse in terms of regional development and performance Italy This book brings together case studies of a number of Italian cities and their hinterlands and looks at new forms of urbanization exploring themes of sustainability industrialization de industrialization governance city planning and quality of life This volume will be of great interest to academics and students who study regional development economic geography and urban studies as well as civil servants and policymakers in the field of spatial planning urban policy territorial policies and governance *Live Love Eat* Simona Casadei, 2020-06-22 Una struttura articolata in stagioni in fasi di vita con un asse biografico ma in cui tutti si possono in diversa misura e con diversa intensit riconoscere e rispecchiare una sorta di agenda di guida quotidiana per un fruitore desideroso di cambiare di migliorarsi ma soprattutto di amarsi e prendersi cura di s Il libro agile versatile utile nel quotidiano e accessibile a tutti corredo prezioso nella giornata di ognuno Si pu trovare auspicabilmente uno spunto un appiglio un suggerimento o anche solo una frase una ricetta da utilizzare nella propria quotidianit per ottenere un piccolo momento di gioia riflessione e magari anche cambiamento e benessere Esperienza personale consigli nutrizionali e spirituali si mescolano e si dipanano per diventare un unico discorso accomunato dal leitmotiv vivi ama mangia Human Rights, Religions and the United Nations Agenda 2030 Antonio Angelucci, Rossella Bottoni, Giovanni Camilleri, Alessandro Cupri, 2025-08-22 The 2030 Agenda for Sustainable Development adopted by the United Nations in 2015 represents more than a roadmap of goals It articulates a vision of deep transformation calling for a rethinking of economic models cultural values ecological responsibilities and social structures While often framed in terms of political action and technological innovation the Agenda s deeper ambitions demand an ethical and spiritual reorientation In this light religious traditions are not peripheral to the global sustainability conversation they are essential interlocutors Human Rights Religions and the United Nations Agenda 2030 investigates how diverse religious and cultural actors are engaging interpreting and even expanding the vision of the 2030 Agenda offering insights critiques and innovations that challenge conventional paradigms of development The contributors demonstrate that sustainable development cannot be achieved without addressing the symbolic spiritual and affective dimensions of human experience In this context the religious imagination asserts itself as a vital force capable of inspiring new narratives shaping collective identities and anchoring

development in values of justice humility reciprocity and hope The volume expresses a coherent and shared conviction that the religious imagination when engaged with the realities and urgencies of our time can emerge as a powerful force for ethical transformation and cultural innovation The Agenda 2030 is thus not only a technopolitical document but a spiritual and cultural horizon The contributions gathered here invite the reader to reflect engage and act at the intersection of faith innovation and global responsibility Geography Notebooks.
