Art Effective Goal Setting:

Effective Goal Setting Silviu Vasile, If you are reading this book it means you want to know more about goal setting and if you really want to then you will find at least one idea that if applied will change your life for the better How much do you believe in your goals How much do you believe you can achieve them Are the goals yours or has someone else chosen them for you What is faith I think it is the ability to not doubt a fact or an outcome even if you initially lack the essential elements that confirm it Faith has a lot to do with intuition but also with positive thinking There will always be three categories promoters of those ideas opponents and indifferent people Personal development is no exception to this logic There will always be people who believe in their ability to evolve and create a better future for themselves and their families there will always be people who are indifferent and for whom the techniques of personal development do not exist they are certainly in a different orbit and can only intersect with personal development perhaps accidentally and people who fight against personal development by trying to criticise and discourage those who practice it If you believe you can achieve more and better then setting goals is the step you need to start with immediately Goals should be yours alone and therefore at first you should not share them with anyone or only with people who can help you achieve them Faith especially if coupled with positive thinking will always pay off with results Hard work and dedication are only a consequence of strong faith Here you will find quality information it s a book that can help you to go beyond your current level and walk your way to success You will be surprised to discover that many of these techniques are not foreign to you that you already know and apply them and if this is the case I can only congratulate you and encourage you to keep going because you are on the right track Next you must have the perseverance to keep going and the courage to face the new challenges that await you *Goal Setting Simplified* Rae A.
