Art Practice As Research Inquiry In Visual Arts 2nd Second Edition:

Art Practice as Research Graeme Sullivan, 2010 Art Practice as Research Second Edition continues to present a compelling argument that the creative and cultural inquiry undertaken by artists is a form of research. The text explores themes, practices, and contexts of artistic inquiry and positions them within the discourse of research. Sullivan argues that legitimate research goals can be achieved by choosing different methods than those offered by the social sciences. The common denominator in both approaches is the attention given to rigor and systematic inquiry. Artists emphasize the role of the imaginative intellect in creating, criticizing, and constructing knowledge that is not only new but also has the capacity to transform human understanding. *Handbook of Arts-Based Research* Patricia Leavy, 2025-01-31 Bringing together interdisciplinary leaders in methodology and arts-based research, ABR, this comprehensive handbook explores the synergies between artistic and research practices and addresses issues in designing, implementing, evaluating, and publishing ABR studies. Coverage includes the full range of ABR genres, including those based in literature such as narrative and poetic inquiry, performance, music, dance, playbuilding, visual arts, drawing, and painting, collage, installation, art, comics, and audiovisual and multimethod approaches. Each genre is described in detail and brought to life with robust research examples. Team approaches, ethics, and public scholarship are discussed, as are innovative ways that ABR is used within creative arts, therapies, psychology, education, sociology, health sciences, business, and other disciplines. The companion website includes selected figures from the book in full color, additional online-only figures, and links to online videos of performance pieces.

Qualitative Research from Start to Finish, Second Edition Robert K. Yin, 2015-07-06 This book will help readers understand the practice of qualitative research, whether they want to do it, teach it, or just learn about it. All the major research phases are encompassed: startup, design, data collection, analysis, and composing, including newly emerging trends. Numerous easy-to-read vignettes show how other scholars have successfully implemented specific procedures. Equally distinctive, the book presents qualitative research as an adaptive craft. The array of choices among different procedures and methods enables readers to customize their own studies and to accommodate different worldviews and genres. New to This Edition: Stronger discussion of different worldviews, e.g., constructivism, postpositivism, and pragmatism, and how they relate to different methodological choices. Clearer emphasis on doing a generalized qualitative study while acknowledging 12 specialized genres, e.g., action-based research, arts-based research, autoethnography, grounded theory, phenomenology, and others. Expanded discussions of different kinds of qualitative study samples and of mixed methods. New ideas on how to avoid getting stalled when analyzing qualitative data. Consideration of an additional way of concluding a qualitative study by taking action. Pedagogical Features: Chapters start with an abstract and end with a suggested exercise. Key terms and concepts appear in boldface throughout the text and are listed in end-of-chapter recaps as well as in the book's glossary. Sections within each chapter start with a preview box: What you should learn from this section. An appendix presents a semester or

yearlong field based project **Visual Methods of Inquiry** Kerry Freedman, Richard Siegesmund, 2023-10-12 Visual Methods of Inquiry Images as Research presents qualitative researchers in the social sciences with the benefits applications and forms of visual research methods It includes a wide variety of images to illustrate the many uses of visual methods for social research Contemporary visual culture theory and practice offers wide ranging opportunities for methodological advancement in the social sciences This book covers the basics of image use in visual research methods and explores how these methods can be used effectively in social science research by surveying the conditions of visual forms materials and concepts and the ways these represent and influence social conditions phenomena beliefs and actions It examines the roles and processes of interpretation in visual research and discusses ethical considerations that arise when using visual research methods Students of social science and the visual arts will find this book useful in expanding and improving their methods of inquiry Artists and researchers already familiar with visual methods will find that this book clarifies the ways the visual works in various research contexts and provides helpful language to describe and explain those methods Arts-Based Educational Research Trajectories Barbara Bickel, Rita L. Irwin, Richard Siegesmund, 2023-03-17 This book offers reflections from Arts Based Educational Research ABER scholars who since 2005 were awarded the American Educational Research Association ABER Special Interest Group's Outstanding Dissertation Award The book includes essays from ten awardees who across diverse artistic disciplines share how their ABER careers evolve and succeed inspiring insights into the possibilities of ABER It also examines the essential role of mentorship in the academy that supports and expands ABER scholarship Drawing from dissertation exemplars in the field this book allows readers to look at how ABER scholars learn with the world while creatively researching and teaching in innovative ways **A Practical Guide to Arts-related Research** Maggi Savin Baden, Katherine Wimpenny, 2014-11-27 This book outlines the principles and practices of arts related inquiry and provides both suggestions about conducting research in the field as well as case study examples The ideas presented here have emerged from the authors own experiences of undertaking arts related research and the challenges of implementing these approaches The book therefore draws on personal research practice and experience to address the concerns academics increasingly appear to be voicing about developing the scholarship and practice of arts related research There is a need for greater attention to and clarity on issues of theoretical positioning methodology and methods when conducting robust and reputable arts related research which this book provides **Teaching Mysticism** William B. Parsons, 2011-10-24 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom This volume addresses the diverse literature surrounding mysticism in four interrelated parts The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions The second part engages traditions and religio cultural strands in which mysticism is linked to other terms such as

shamanism esotericism and Gnosticism The volume s third part focuses on methodological strategies for defining mysticism with respect to varying social spaces The final essays show how contemporary social issues and movements have impacted the meaning study and pedagogy of mysticism Teaching Mysticism presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces It surveys the broad range of meanings of mysticism its utilization in the traditions the theories and methods that have been used to understand it and provides critical insight into the resulting controversies

Doing Performative Social Science Kip Jones,2022-06-30 Doing Performative Social Science Creativity in Doing Research and Reaching Communities focuses as the title suggests on the actual act of doing research and creating research outputs through a number of creative and arts led approaches Performative Social Science PSS embraces the use of tools from the arts e g photography dance drama filmmaking poetry fiction etc by expanding even replacing more traditional methods of research and diffusion of academic efforts Ideally it can include forming collaborations with artists themselves and creating a professional research learning and or dissemination experience These efforts then include the wider community that has a meaningful investment in their projects and their outputs and outcomes In this insightful volume Kip Jones brings together a wide range of examples of how contributing authors from diverse disciplines have used the arts led principles of PSS and its philosophy based in relational aesthetics in real world projects The chapters outline the methods and theory bases underlying creative approaches show the aesthetic and relational constructs of research through these approaches and show the real and meaningful community engagement that can result from projects such as these This book will be of interest to all scholars of qualitative and arts led research in the social sciences communication and performance studies as well as artist scholars and those engaging in community based research
