Museums in Motion Edward P. Alexander, Mary Alexander, 2008 In 1979 Edward P. Alexander's *Museums in Motion* was hailed as a much needed addition to the museum literature In combining the history of museums since the eighteenth century with a detailed examination of the function of museums and museum workers in modern society it served as an essential resource for those seeking to enter to the museum profession and for established professionals looking for an expanded understanding of their own discipline Now Mary Alexander has produced a newly revised edition of the classic text bringing it the twenty first century with coverage of emerging trends resources and challenges New material also includes a discussion of the children's museum as a distinct type of institution and an exploration of the role computers play in both outreach and traditional in person visits

Towards a New Museum Victoria Newhouse, 1998 Presents a challenge to traditional museum design and demonstrates that new museums are often still based on old concepts that no longer apply to contemporary art forms

The Oxford Handbook of Roman Sculpture Elise A. Friedland, Melanie Grunow Sobocinski, Elaine K. Gazda, 2015 The study of Roman sculpture has been an essential part of the disciplines of Art History and Classics since the eighteenth century Famous works like the Laocoön the Arch of Titus and the colossal portrait of Constantine are familiar to millions Again and again scholars have returned to sculpture to answer questions about Roman art society and history Indeed the field of Roman sculptural studies encompasses not only the full chronological range of the Roman world but also its expansive geography and a variety of artistic media formats sizes and functions Exciting new theories methods and approaches have transformed the specialized literature on the subject in recent decades Rather than creating another chronological catalogue of representative examples from various periods genres and settings *The Oxford Handbook of Roman Sculpture* synthesizes current best practices for studying this central medium of Roman art situating it within the larger fields of Art History Classical Archaeology and Roman Studies This comprehensive volume fills the gap between introductory textbooks and highly focused professional literature *The Oxford Handbook of Roman Sculpture* conveniently presents new technical scientific literary and theoretical approaches to the study of Roman sculpture in one reference volume while simultaneously complementing textbooks and other publications that present well known works in the corpus The contributors to this volume address metropolitan and provincial material from the early republican period through late antiquity in an engaging and fresh style Authoritative innovative and up to date *The Oxford Handbook of Roman Sculpture* will remain an invaluable resource for years to come

Architectural Digest, 2005 The international magazine of fine interior design Art for Social Change and Cultural Awakening Wei Hsiu Tung, 2013-09-05 Artistic residency has become widely adopted in Western countries while only recently having become popular and well supported within Taiwan This book explores the challenges that this form of art practice faced in contemporary Taiwan from the revocation of Martial Law in 1987 to the 2000s arguably one of the most exciting periods in the sociocultural history of the island Case studies show what is at stake politically historically and socially in artists endeavours to give shape to a sense of Taiwanese identity Despite the prevalence of artists engaged in social issues in today's world and the undeniable contributions of artistic residency to contemporary art practice little literature or scholarly research has been conducted on the practical conceptual and ideological aspects of artist residency Very often it is perceived in very narrow terms overlooking explicit or hidden issues of localism nationalism and globalization If artistic residence did indeed emerge from the radical movements of the 1960s and 70s in the Western world and especially Britain then this book argues that the contemporary sociocultural context of Taiwan calls for redefined culturally specific models of residency The precarious geo political situation of Taiwan has made issues of cultural identity tackled by artists and successive governments alike very sensitive A new genre of artistic residence in Taiwan would mean that artists involved from whatever cultural background operate as engaging interpreters their roles would not be confined to mirroring culture and society These artists in residence would contribute to cultural awakening by offering ways of negotiating creatively with otherness and this for the sake of a better social life and shared identity **Museum Practice**, 2006 Hearings, Reports and Prints of the Senate Committee on the Judiciary United States.
