

## ADEMCO 6152RF Keypad / Transceiver – Installation and Setup Guide

Fixed Addressable Keypad/Transceivers for use with Honeywell Control Panels; incorporates normally-open relay output with the functions of a 16 zone RF Receiver and a 5800 Transmitter module.

Programmable to support the following :

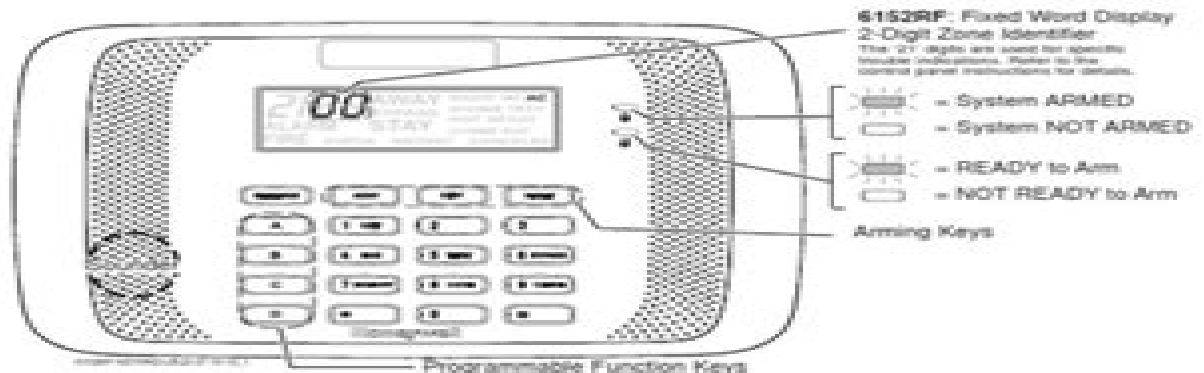

- Bi-directional 5828/5828V wireless keypads and wireless keys (e.g., 5804BDV, 5804-4, etc.)
- Up to eight button-type wireless keys locally (programmed directly into the keypad), without occupying control panel zones
- Up to 16 5800 series wireless zones programmed into any supported control panel
- Wireless keys with high security mode enabled

To activate Function keys, press and hold key for at least 2 seconds; key pairs are activated immediately.

Table 1 – Programmable Function Keys

|                                                                                                                                                                              |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A or  and  |
| B or  and  |
| C or  and  |
| D                                                                                                                                                                            |

Note: See the control's instructions for details on programming the Function keys for panic alarms or other special functions (i.e., macros).

6152RF: Fixed Word Display 2-Digit Zone Identifier

The 2-digit display is used for specific trouble indications. Refer to the control panel instructions for details.

| Settings Key                                                                                                                                                                                                                                                                                                                            | Result                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Press  for 2 Seconds                                                                                                                                                                                                                                   | Enters Display Test Mode                                                                   |
| Press  for 2 Seconds and during the Display Test, press and hold  and  for 3 Seconds | Reboots the Keypad (the keypad beeps and the ARM and READY LEDs flash for several seconds) |

### 1. OPEN

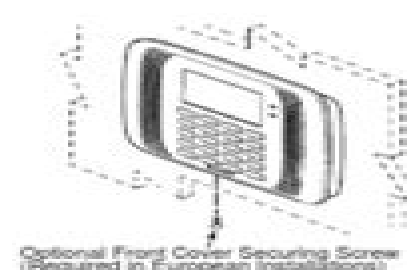

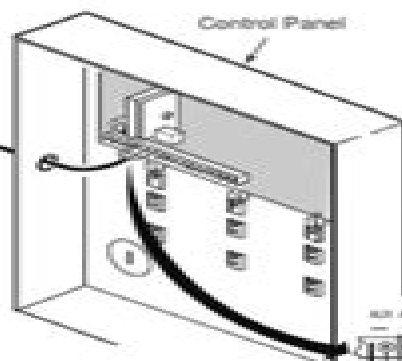

### 2. WIRE

- Connect only one wire per terminal.
- For Daisy-Chain Configurations, use wire splicing so only one wire is connected to each terminal.

### 3. MOUNT

Mount on drywall, or in a single or double-gang electrical box.
