*A Manual for the Practice of Surgery* Thomas Bryant,1879 **InfoWorld**

,1997-12-08 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers  
InfoWorld also celebrates people companies and projects **The Commercial Car Journal** ,1959-03 Beginning with 1937  
the April issue of each vol is the Fleet reference annual *The Prisoner's Release* Keith Soothill,2023-10-25 For well over  
one hundred years society had considered ways of helping prisoners on their release from prison but there had been no  
serious attempt to assess in a scientific manner the value of such efforts Originally published in 1974 this book broke with  
this tradition and was the first full scale work published in this country evaluating carefully whether an active policy of  
finding suitable employment for men immediately on their release from prison had beneficial results The first part of the  
book discusses the historical development of prison after care from its early origins in the nineteenth century and indicates  
how up to the Second World War the primary object of after care had been regarded as the reinstatement of the ex prisoners  
in employment Gradually the specific task of finding jobs for ex prisoners had become a peripheral activity considered as the  
responsibility of the Department of Employment The effectiveness of the Department s pre release procedure for prisoners is  
discussed The rest of the book considers the fascinating Apex project set up to examine the effectiveness of finding work for  
ex prisoners The work of Apex continued to develop and expand but the present study considers the first five years when  
over four hundred men were randomly selected from two London prisons and offered the services of a specialist employment  
agency The outcome for these men is compared with a control group of over three hundred men randomly selected from the  
same prisons This study is concerned with the general run of the prison population and interestingly shows how some  
prisoners accept and others reject the offer of an employment service It further indicates the enormous efforts sometimes  
needed to find suitable employment for prisoners on release The outcome of the job interviews arranged in terms of the  
proportions attending the interviews starting the jobs and the length of time men stayed in the jobs arranged is vital reading  
for anyone involved in after care An important part of the work is the examination of the subsequent reconviction rates for  
the various groups of offenders and the implication that it seems possible to predict men who are unlikely to be helped by the  
simple provision of employment on release The final chapter considers critically some of the assumptions upon which the  
Apex project was based and the possible use of computer techniques in the individualization of treatment is briefly discussed  
The author was particularly well qualified to discuss this subject for apart from his work over a number of years with several  
after care organizations the present project involved working in prisons for over three years as well as interviewing and  
talking to men after their release The findings of this study will interest the wide variety of people concerned with prison  
after care Criminologists sociologists probation officers and all others working in prisons and after care will recognize the  
important implications of the material presented in this book *Pro Oracle Application Express* John Scott,Scott  
Spendolini,2008-10-23 Application Express or APEX is one of the most innovative products to come out of Oracle in years  
APEX is an application development framework for developing database backed applications It s easy enough to get started
