Descriptive Translation Studies Anthony Pym, Miriam Shlesinger, Daniel Simeoni, 2008-03-13 To go beyond the work of a leading intellectual is rarely an unambiguous tribute However when Gideon Toury founded Descriptive Translation Studies as a research based discipline he laid down precisely that intellectual challenge not just to describe translation but to explain it through reference to wider relations That call offers at once a common base an open and multidirectional ambition and many good reasons for unambiguous tribute The authors brought together in this volume include key players in Translation Studies who have responded to Toury s challenge in one way or another Their diverse contributions address issues such as the sociology of translators contemporary changes in intercultural relations the fundamental problem of defining translations the nature of explanation and case studies including pseudotranslation in Renaissance Italy Sherlock Holmes in Turkey and the coffee and sugar economy in Brazil All acknowledge Translation Studies as a research based space for conceptual coherence and creativity all seek to explain as well as describe In this sense we believe that Toury s call has been answered beyond expectations *Translating Cultures* David Katan, Mustapha Taibi, 2021-06-17 This bestselling coursebook introduces current understanding about culture and provides a model for teaching culture to translators interpreters and other mediators The approach is interdisciplinary with theory from Translation Studies and beyond while authentic texts and translations illustrate intercultural issues and strategies adopted to overcome them This new third edition has been thoroughly revised to update scholarship and examples and now includes new languages such as Arabic Chinese German Japanese Russian and Spanish and examples from interpreting settings This edition revisits the chapters based on recent
