Birds in Sanskrit Literature K. N. Dave, 2005-01-01 In his monumental research in ancient Sanskrit literature, the author has restored gaps in lexicons and removed doubts in the later Sanskrit works about the identity of a very large number of birds of the Indian subcontinent. The ancient sages of India were great lovers of nature with keen powers of observation and an extraordinary sensitivity about animal behaviour. The Vedas, Puranas, Epics, and Samhitas are full of descriptions of birds, animals, and plants, but the exact identification of names had got lost or confounded over the centuries.
