Rivke Jaffe, Anouk de Koning

Black Corona Race And The Politics Of Place In An Urban Community:

Black Corona Steven Gregory, 2011-03-28 In *Black Corona* Steven Gregory examines political culture and activism in an African American neighborhood in New York City Using historical and ethnographic research he challenges the view that black urban communities are socially disorganized Gregory demonstrates instead how working class and middle class African Americans construct and negotiate complex and deeply historical political identities and institutions through struggles over the built environment and neighborhood quality of life With its emphasis on the lived experiences of African Americans *Black Corona* provides a fresh and innovative contribution to the study of the dynamic interplay of race class and space in contemporary urban communities It questions the accuracy of the widely used trope of the dysfunctional black ghetto which the author asserts has often been deployed to depoliticize issues of racial and economic inequality in the United States By contrast Gregory argues that the urban experience of African Americans is more diverse than is generally acknowledged and that it is only by attending to the history and politics of black identity and community life that we can come to appreciate this complexity This is the first modern ethnography to focus on black working class and middle class life and politics Unlike books that enumerate the ways in which black communities have been rendered powerless by urban political processes and by changing urban economies *Black Corona* demonstrates the range of ways in which African Americans continue to organize and struggle for social justice and community empowerment Although it discusses the experiences of one community its implications resonate far more widely Some images inside the book are unavailable due to digital copyright restrictions

Bargaining for Brooklyn Nicole P. Marwell, 2009-05-15 When middle class residents fled American cities in the 1960s and 1970s government services and investment capital left too Countless urban neighborhoods thus entered phases of precipitous decline prompting the creation of community based organizations that sought to bring direly needed resources back to the inner city Today there are tens of thousands of these CBOs private nonprofit groups that work diligently within tight budgets to give assistance and opportunity to our most vulnerable citizens by providing services such as housing child care and legal aid Through ethnographic fieldwork at eight CBOs in the Brooklyn neighborhoods of Williamsburg and Bushwick Nicole P Marwell discovered that the complex and contentious relationships these groups form with larger economic and political institutions outside the neighborhood have a huge and unexamined impact on the lives of the poor Most studies of urban poverty focus on individuals or families but *Bargaining for Brooklyn* widens the lens examining the organizations whose actions and decisions collectively drive urban life

Remembering, Forgetting and City Builders Haim Yacobi, 2016-04-08 *Remembering Forgetting and City Builders* critically explores how urban spaces are designed planned and experienced in relation to the politics of collective and personal memory construction Bringing together case studies from North America South Asia Eastern Europe and the Middle East the book analyzes how contested national ethnic and cultural sentiments clash in planning and experiencing urban spaces Going beyond the claim that such situations exist in many parts

of the world because communities construct their past memories within their current daily life and future aspirations the book explores how the very acts of planning and urban design are rooted in the existing structures of hegemonic power With contributors from the fields of architecture geography planning anthropology and sociology urban studies and cultural studies the book provides a rich interdisciplinary view into the conflicts over memory and belonging which are spatially expressed and mediated through the official planning apparatus

Unfair Housing Mara S. Sidney, 2003 It is difficult to ignore the fact that even as the United States becomes much more racially and ethnically diverse our neighborhoods remain largely segregated The 1968 Fair Housing Act and 1977 Community Reinvestment Act promised to end discrimination yet for millions of Americans housing options remain far removed from the American Dream Why do most neighborhoods in American cities continue to be racially divided The problem suggests Mara Sidney lies with the policies themselves She contends that to understand why discrimination persists we need to understand the political challenges faced by advocacy groups who implement them In *Unfair Housing* she offers a new explanation for the persistent color lines in our cities by showing how weak national policy has silenced and splintered grassroots activists Sidney explains how political compromise among national lawmakers with divergent interests resulted in housing legislation that influenced how community activists defined discrimination what actions they took and which political relationships they cultivated As a result local governments became less likely to include housing discrimination on their agendas existing laws went unenforced and racial segregation continued A former undercover investigator for a fair housing advocacy group Sidney takes readers into the neighborhoods of Minneapolis and Denver to show how federal housing policy actually works She examines how these laws played out in these cities and reveals how they eroded activists capability to force more sweeping reform in housing policy Sidney also shows how activist groups can cultivate community resources to overcome these difficulties looking across levels of government to analyze how national policies interact with local politics In the first book to apply policy design theories of Anne Schneider and Helen Ingram to an empirical case Sidney illuminates

overlooked impacts of fair housing and community reinvestment policies and extends their theories to the study of local politics and nonprofit organizations Sidney argues forcefully that understanding the link between national policy and local groups sheds light on our failure to reduce discrimination and segregation As battles over fair housing continue her book helps us understand the shape of the battlefield and the prospects for victory *Not Working* Alejandra Marchevsky, Jeanne Theoharis, 2006-04-10 *Not Working* chronicles the devastating effects of the 1996 welfare reform legislation that ended welfare as we know it For those who now receive public assistance work means pleading with supervisors for full time hours juggling ever changing work schedules and shuffling between dead end jobs that leave one physically and psychically exhausted Through vivid story telling and pointed analysis *Not Working* profiles the day to day struggles of Mexican immigrant women in the Los Angeles area showing the increased vulnerability they face in the welfare office and labor market The new work first policies now enacted impose time limits and mandate work requirements for those receiving public assistance yet fail to offer real job training or needed childcare options ultimately causing many families to fall deeper below the poverty line *Not Working* shows that the new welfare to work regime has produced tremendous instability and insecurity for these women and their children Moreover the authors argue that the new politics of welfare enable greater infringements of rights and liberty for many of America s most vulnerable and constitute a crucial component of the broader assault on American citizenship In short the new welfare is not working **Hydraulic City** Nikhil Anand, 2017-03-17 Nikhil Anand explores the politics of Mumbai s water infrastructure to demonstrate how citizenship and the rights through which to make demands on the state for public services emerges through the relations between residents plumbers politicians engineers and the 3000 miles of pipe that bind them *A Grounded Identity* Merida M. Rue, 2012-06-27 Chicago is home to the third largest concentration of Puerto Ricans in the United States but scholarship on the city rarely accounts for their presence This book is part of an effort to include Puerto Ricans in Chicago s history Rue traces Puerto Ricans construction of identity in a narrative that begins in 1945 when a small group of University of Puerto Rico graduates earned scholarships to attend the University of Chicago and a private employment agency recruited Puerto Rican domestics and foundry workers They arrived from an island colony where they had held U S citizenship and where most thought of themselves as white But in Chicago Puerto Ricans were considered colored and their citizenship was second class They seemed to share few of the rights other Chicagoans took for granted In her analysis of the following six decades during which Chicago witnessed urban renewal loss of neighborhoods emergence of multiracial coalitions waves of protest movements and everyday commemorations of death and life Rue explores the ways in which Puerto Ricans have negotiated their identity as Puerto Ricans Latinos and U S citizens Through a variety of sources including oral history interviews ethnographic observation archival research and textual criticism *A Grounded Identity* attempts to redress this oversight of traditional scholarship on Chicago by presenting not only Puerto Ricans reconstitution from colonial subjects to second class citizens but also by

examining the implications of this political reality on the ways in which Puerto Ricans have been racially imagined and positioned in comparison to blacks whites and Mexicans over time *Hispanas de Queens* Milagros Ricourt, Ruby Danta, 2018-08-06 What happens when persons of several Latin American national groups reside in the same neighborhood Milagros Ricourt and Ruby Danta consider the stories of women of different nationalities Colombian Cuban Dominican Ecuadorian Peruvian Puerto Rican Uruguayan and others who live together in Corona a working class neighborhood in Queens Corona has long been an arrival point for immigrants and is now made up predominantly of Spanish speaking immigrants from the Caribbean and South and Central America with smaller numbers from Asia Africa and Europe There are also long established populations of white Americans mainly of Italian origin and African Americans The authors find that the new pan Latin American community in Corona has emerged from the interactions of everyday living *Hispanas de Queens* focuses on the places where women gather in Corona bodegas hospitals schoolyards and Roman Catholic and Protestant churches to show how informal alliances arise from proximity Ricourt and Danta document how a group of leaders mainly women consciously promoted this strong sense of community to build panethnic organizations and a Latino political voice *Hispanas de Queens* shows how a new group identity Hispanic or Latino is formed without replacing an individual's identification as an immigrant from a particular country Instead an additional identity is created and can be mobilized by pan Latino leaders and organizations

Introducing Urban Anthropology Rivke Jaffe, Anouk de Koning, 2015-10-30 This book provides an up to date introduction to the important and growing field of urban anthropology This is an increasingly critical area of study as more than half of the world's population now lives in cities and anthropological research is increasingly done in an urban context Exploring contemporary anthropological approaches to the urban the authors consider How can we define urban anthropology What are the main themes of twenty first century urban anthropological research What are the possible future directions in the field The chapters cover topics such as urban mobilities place making and public space production and consumption politics and governance These are illustrated by lively case studies drawn from a diverse range of urban settings in the global North and South Accessible yet theoretically incisive *Introducing Urban Anthropology* will be a valuable resource for anthropology students as well as of interest to those working in urban studies and related disciplines such as sociology and geography
