Sharrock,2010-12-30 The Atlas plots the results of the survey organised by the BTO and the IWC during the years 1968-72 Over 250 maps show the distribution of 218 species This companion volume to The Atlas of Wintering Birds in Britain and Ireland is derived from yearly surveys of breeding birds in Britain and Ireland during 1968-72 organised by the British Trust for Ornithology and the Irish Wildbird Conservancy Each of the 3 862 10 km squares of Britain and Ireland was visited during the five years and the resulting records over 285 000 are summarised in the maps The full page maps plot the known distribution of all but 11 of the 229 breeding species located during the survey period Each map has an accompanying text which describes the species habitat the problems involved in proving breeding the historical background to the species range and any changes in its numbers The probable reasons for these changes are discussed and an attempt made to assess the total number of birds for each species Jacket design by Robert Gillmor **Birds in Scotland** Valerie M. Thom,2010-11-30 The most important work on the birds of Scotland ever published British Birds This comprehensive study and review of the birds in Scotland follows on from where the celebrated two volumes of The Birds of Scotland 1953 by Dr Baxter and Miss Rintoul left off It does more than that however since not only has there been a profound increase in ornithological coverage and data as reflected in the species accounts there have also been great changes in

habitat and environment since the days of Baxter there are also brief summaries of earlier data based on the researches of Baxter Rintoul In all 497 species are dealt with The texts of major species accounts are complemented by 173 distribution maps and many tables of relevant data and there are 129 species drawings by a team of artists under the editorship of Donald Watson who also contributes chapter head pieces and other drawings A section of photographs illustrates the varied habitats typical of Scotland today There are further appendices and an extensive bibliography The book will be of great interest to all birdwatchers in Scotland but of special value too to the many thousands of birdwatching visitors from elsewhere in these islands and from countries abroad The Scottish Ornithologists Club for whom the book is published and all whose records and researches made the author s work possible have reason to be proud of Valerie Thom s achievement
