Dominick L. Finello, 1994 Pastoral Themes and Forms in Cervantes's Fiction explores the various pastoral dimensions of Cervantes's art from his early *Galatea* which is a pastoral novel to his masterful *Don Quijote de la Mancha* Dominick Finello here focuses on the pastoral's impact on the composition of *Don Quijote* its rural backdrop of a rustic Spain the literary inheritance of its characters and style its dialogic structure which reflects that of the pastoral novel and the vital stimulus produced by Cervantes's direct observation of the effects of imaginative pastoral disguises and mimetic play on its characters including bucolic games the representation of eclogues and masques and other such diversions The blending of pastoral themes and forms into his fiction has led Cervantes to ring major changes on conventional patterns of the pastoral The pastoral's congenial interaction with the creativity of *Don Quijote* is apparent in the novel's settings and character conception With regard to the settings pastoral style in the *Quijote* focuses specifically on the geographical configuration and rural backdrop of *Don Quijote*'s adventures and eventually places them in the context of the history of pastoral nomadism on the Iberian peninsula With regard to characters shepherds goatherds farmers and other rural people appear everywhere in the *Quijote* and Sancho Panza is the leading rustic personage from this group Sancho's felicitous projection of pastoral life reflects his fundamental optimism *Don Quijote* is linked to the literary shepherd through his discourse on the golden age his imitation of the lovelord shepherd in the Sierra Morena episode of part 1 and the Pastor Quijotiz scheme which signals his demise late in part 2 Dulcinea *Don Quijote*'s beloved is conceived with both the rustic and literary dimensions of the pastoral heroine One of the essential features of the *Quijote* is its dialogic structure which reflects that of the Renaissance academic colloquium and that of the pastoral novel Another vital pastoral stimulus of Cervantes's art is his direct observation of the effects of imaginative pastoral disguises and mimetic play on his characters The documented social customs involving pastoral mimesis such as eclogues masques and games indicate that pastoral expression and values have been integrated to a significant degree into the fabric of the lives of Cervantes's characters Cervantes's attitude toward the pastoral may be established through direct statements he made about pastoral authors poems and books It may also be constituted through less direct means such as the abrupt conclusion and subsequent disappearance of pastoral stories from the main narrative of the *Quijote* BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Ask Pastor**
