Black Cat Raiders Of Ww II:

Black Cat Raiders of WWII Richard C Knott, 2012-04-15 Thanks to the PBYS daring pilots and their effective tactics the slow outdated Catalina patrol bombers became the scourge of Japanese shipping in the South Pacific during World War II Painted black and hunting at night the Black Cats as they were called are credited with sinking or disabling hundreds of thousands of tons of cargo vessels troop transports and warships Curiously their exploits were known to few outside the naval aviation community until the publication of this book in 1981 This testimonial to their magnificent performance is told by an experienced flying boat pilot who has pieced together the fascinating story from reminiscences of the men who flew the long arduous missions and from official navy records It is an inspiring tale of fearless men in machines ill designed for combat who wreaked havoc on a dangerous and merciless adversary Illustrated with more than sixty photographs and detailed line drawings it is a book to be savored by those who like their adventure stories to ring true **Black Cat Raiders**

of World War II Richard C. Knott, 1984-05-01 *Leave No Man Behind* George Galdorisi, Thomas Phillips, 2009-01-16 Beginning with the birth of combat aircraft in World War I and the early attempts to rescue warriors trapped behind enemy lines *Leave No Man Behind* chronicles in depth nearly one hundred years of combat search and rescue CSAR All major U S combat operations from World War II to the early years of the Iraq War are covered including previously classified missions and several Medal of Honor winning operations Authors George Galdorisi and Tom Phillips both veteran U S Navy helicopter pilots highlight individual acts of heroism while telling the big picture story of the creation and development of modern CSAR Although individual missions have their successes and failures CSAR as an institution would seem beyond reproach an obvious necessity The organizational history of CSAR however is not entirely positive The armed services particularly the U S Air Force and Navy have a tendency to cut CSAR at the end of a conflict leaving no infrastructure prepared for the next time that the brave men and women of our armed forces find themselves behind enemy lines The final chapter has not yet been written for U S combat search and rescue but in view of the life saving potential of these forces an open and forthright review of U S military CSAR plans and policies is long overdue Beyond the exciting stories of heroic victories and heartrending defeats *Leave No Man Behind* stimulates debate on this important subject [Air University Review](#) , 1982

be an American a wonderful fast paced read and I highly recommend it for any World War II aviation enthusiast Military Review There were no mission limits for a pilot in the Pacific during World War II unlike in Europe you flew until it was time to go home So it was for James Jug Curran all the way from New Guinea to the Philippines with the 348th Fighter Group the first P 47 Thunderbolt outfit in the Pacific After the attack on Pearl Harbor Curran volunteered to try flying in the blue yonder and trained as an Army fighter pilot He got his wish to fly the P 47 in the Pacific going into combat in August 1943 in New Guinea and later helping start the Black Rams fighter squadron The heavy US Thunderbolts were at first curious to encounter the nimble battle hardened Japanese in aerial combat but soon the American pilots gained skill of their own and their planes proved superior Bombers on both sides could fall to fighters but the fighters themselves were eyeball to eyeball best man win Check Six is an aviation chronicle that brings the reader into flight then into the fight throughout the Pacific War and back This work from someone who was there captures the combat experience of our aviators in the Pacific aided by pertinent excerpts from the official histories of units that Jug Curran flew with Jim Curran is not afraid to share his moments of fear and emotions during the air battles with his readers which gives the book an extra dimension AviationBookReviews.com **Billboard** ,1985-07-13 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Brown,2016-02-25 Of Raincrows and Ivy Leaves by Edgar Brown with Dr Judith A Brown This is a remarkable book It tells the story of an apparently ordinary American who happens to be born in extraordinary times and who is therefore forced to live an exceptional life Edgar Brown is a member of that generation which fought both the Great Depression and World War II and prevailed Thus this story of one man s life becomes the story of the history of our country through some of its most dramatic and significant times in microcosm But beyond that Of Raincrows and Ivy Leaves reveals a very human life In detail that is startling unsparing and remarkably straightforward we get to know a person better perhaps than we know even some of those closest to us
