 - Occurs when an environment has many different habitats with their own evolutionary pressures
 - After a mass extinction, where they have to fill all the ecological niches

Gruber,1963 **Exploring Technology-Infused Education in the Post-Pandemic Era** Tomei, Lawrence A.,Carbonara, David D.,2024-08-05 In the aftermath of the 2020 2022 pandemic educators find themselves grappling with the decision to revert to traditional instructional methods or embrace the transformative power of 21st century technologies The swift integration of virtual classrooms videoconferencing and social media during the pandemic has left teachers navigating uncharted territory Many who once vehemently resisted technology

now stand on the precipice of a digital revolution in education This dichotomy poses a pressing problem a dearth of documented research and guidance for educators seeking to measure the true value of these technologies in the post pandemic era Exploring Technology Infused Education in the Post Pandemic Era offers guidance and solutions to the challenges faced by educators As teachers stand on the brink of a pivotal decision the research community lags behind in providing the necessary insights to inform their choices The questions loom large What technologies emerged during the pandemic and have they proven effective in the classroom Can these innovations seamlessly coexist with traditional instructional methods The void in documented research leaves educators in a quandary lacking the evidence needed to make informed decisions about the integration of technology into their teaching practices This critical gap impedes progress and hinders the unleashing of the full potential of 21st century educational tools
