Accounting From the Outside (RLE Accounting) Tony Hopwood,2013-11-26 The 43 papers in this collection originally published from 1972 to 1987 delve into accounting observing and exploring its functioning They construct a basis for interrogating it in use and indeed they attempt to account for accounting The author seeks to understand accounting to appreciate what it is what it does and how it does it examining it from without rather than from within **Local Authority Accounting Methods Volume 1 (RLE Accounting)** Hugh Coombs,J. Edwards,2014-05-09 This book contains a collection of papers dealing with a range of controversial issues which exercised the minds of local authority officials from 1884 1908 The 28 items reproduced cover a wide range of matters They are presented chronologically because many of the papers deal with more than one topic but also because it provides a clearer guide to the development of views on numerous inter related issues These issues are still of interest and relevant today most of the papers deal with the need to improve the level of accountability to local electors something which has been the main thrust of UK government policy since 1979 Other papers focus on the need to address internal accounting problems such as the need for improved costing procedures to measure the performance of different activities *Accounting in Scotland (RLE Accounting)* Janet E. Pryce-Jones,Robert H. Parker,2014-01-23 The first Scottish book on accounting was published in 1683 That book heralded a century during which Scotland established its reputation as a land of accountants a steady stream of books subsequently appeared from Scottish presses This bibliography contains over 330 location entries including 32 non UK libraries Periodical articles as well books are included *British Cost Accounting 1887-1952 (RLE Accounting)* Trevor Boyns,Malcolm Anderson,J. Edwards,2014-01-23 This anthology provides readers with a flavour of the development of cost accounting and emerging management accounting literature from The Costing Renaissance to 1952 Many of the issues which were prominent in the middle of the twentieth century are still pressing issues today and received important early treatments However a more balanced longitudinal coverage of the relevant material enables readers to trace the development of new attitudes to problems which had been recognized early on and to become aware of the fact that different issues tended to dominate the literature as time went by The selection bias has favoured material which was covered for the first time or in a new way **The History of Accounting (RLE Accounting)** Michael Chatfield,Richard Vangermeersch,2014-02-05 Global in scope accounting has had its share of great thinkers and practitioners from Luca Pacioli the father of accounting to R J Chambers W W Cooper Yuji Ijiri Stephen A Zeff and other figures This encyclopedia presents more than 400 entries that focus on such subjects as publications in the field institutional bodies accounting and economic concepts accounting issues authors in accounting records leaders in the profession accounting in various countries financial court cases accounting exams and historical researchers *Business Budgets and Accounts (RLE Accounting)* Harold Edey,2014-02-05 This book shows the relevance of accounting methods to the economic and administrative problems of business The book has been arranged to

Depreciation and Capital Maintenance (RLE Accounting) Richard Brief, 2013-11-26 Of the nine articles reprinted in this volume originally published in 1984 those by Ladelle Hotelling and Anton are recognized as being the classic articles on the depreciation of a single machine Each of these articles was published in a journal that is often not accessible and reprinted here has brought them together in one place For many years accountants have dealt with depreciation and capital maintenance as a static problem This volume recognizes its dynamic aspects

Financial Reporting to Employees (RLE Accounting) Lee D. Parker, 2013-12-04 This book introduces accountants and managers to an historical perspective of corporate financial reporting to employees It presents a resource for research and practice based upon a literature that for its pre 1970 decades has been largely unfamiliar to contemporary educators researchers and practitioners alike In addition the pieces not only provide an historical view of issues and arguments but of actual reporting practice and audience responses For the students and researcher these readings offer a first hand glimpse into the intentions of employee report producers the critiques of observers at the time and the requirements of employees in some instances For report producers managers and accountants it reveals some of the reporting traditions that we have inherited today as well as reporting practices that have already been recommended tried and tested in the past The readings selected cover a sixty year period from the 1920s through to the close of the 1970s with the exception of the first contribution by Lewis Parker and Sutcliffe 1984 that serves as the historical overview and analysis for the whole text
