

ASSETS

Assets are resources owned by a company that have economic value and can be converted into cash. They are divided into current assets and non-current assets.

Current Assets are assets that are expected to be converted into cash or sold within one year. Examples include cash, accounts receivable, inventory, and prepaid expenses.

Non-current Assets are assets that are not expected to be converted into cash or sold within one year. Examples include property, plant, and equipment, intangible assets, and investments.

LIABILITIES

Liabilities are obligations or debts that a company owes to other parties. They are divided into current liabilities and non-current liabilities.

Current Liabilities are liabilities that are expected to be paid or settled within one year. Examples include accounts payable, short-term debt, and accrued liabilities.

Non-current Liabilities are liabilities that are not expected to be paid or settled within one year. Examples include long-term debt, pension liabilities, and deferred tax liabilities.
