Ascent To Heaven In Islamic And Jewish Mysticism:

Ascent to Heaven in Islamic and Jewish Mysticism Algis Uždavinys, 2011-08 In this groundbreaking work of comparative religion Algis Uzdavins takes us deeply into the closed and blessed gardens of myth showing us the capital importance of the many varieties of ascent to heaven From the Pyramid Texts down to Second Temple Judaism and apocalyptic Christian literature and in parallel down the theurgic path of Platonic and Hermetic literature to the sanctum of the Islamic revelation in Mecca we are vividly presented with the sacramental impact of anagoge elevation to the domain of the supernal archetypes and heavenly principles As with other books by the author the face of antiquity is revealed anew full of intriguing challenging and enraptured insights **The Esoteric in Religious and Spiritual Traditions** Patrick Laude, 2025-06-28 This book offers a comparative examination of the esoteric dimension across diverse religions including Buddhism Christianity Hinduism and Islam It seeks to answer the question of whether the concept of the esoteric can be applied across traditions and explores intersections convergences and differences in its use and presence therein The book provides new avenues for research by moving beyond the study of Western esotericism and examining how the category of the esoteric can be applied in the contexts of Abrahamic faiths and Asian traditions The book is organized into six centers of reflection including the esoteric dialectics of hiding and revealing the claim of esoteric traditions to restore wholeness and provide a comprehensive understanding of reality the character of immediacy and directness the intrinsic esoteric distinction between two truths and the non dualistic leanings of esoteric schools in terms of the unity of reality and the subjective immanence of an all embracing Divine Selfhood Overall the book provides a comprehensive phenomenology of the esoteric in religions It will be of interest to researchers and students of theology and religious studies **Cosmopolitanism and the Middle Ages** J. Coulter-Harris, 2016-08-12 Humans have been chasing immortality since the beginning of history seeking answers to sickness and aging death and the afterlife and questioning the human condition Analyzing ideas from ancient Sumer Egypt Greece and India as well as the Abrahamic religions of Judaism Christianity and Islam this study explores how early religious models influenced later beliefs about

immortality the afterlife the human soul resurrection and reward and punishment The author highlights shared teachings among the most influential religions and philosophies concluding that humankind has not substantially changed its conceptions of immortality in 6 000 years This continuity of belief may be due to chromosomal memory and cultural inheritance or may represent a fundamental way of conceptualizing the afterlife to cope with mortality
