Young Exceptional Children Monograph Series No. 4 M. Ostrosky, Eva Horn, 2009-03 Handbook of Special Education
James M. Kauffman, Daniel P. Hallahan, 2011-05-15 Special education is now an established part of public education in the United States by law and by custom However it is still widely misunderstood and continues to be dogged by controversies related to such things as categorization grouping assessment placement funding instruction and a variety of legal issues The purpose of this 13 part 57 chapter handbook is to help profile and bring greater clarity to this sprawling and growing field To ensure consistency across the volume chapter authors review and integrate existing research identify strengths and weaknesses note gaps in the literature and discuss implications for practice and future research Key features include Comprehensive Coverage Fifty seven chapters cover all aspects of special education in the United States including cultural and international comparisons Issues Trends In addition to synthesizing empirical findings and providing a critical analysis of the status and direction of current research chapter authors discuss issues related to practice and reflect on trends in thinking Categorical Chapters In order to provide a comprehensive and comparative treatment of the twelve categorical chapters in section IV chapter authors were asked to follow a consistent outline Definition Causal Factors Identification Behavioral Characteristics Assessment Educational Programming and Trends and Issues Expertise Edited by two of the most accomplished scholars in special education chapter authors include a carefully chosen mixture of established and rising young stars in the field This book is an appropriate reference volume for anyone researchers scholars graduate students practitioners policy makers and parents interested in the state of special education today its research base current issues and practices and future trends It is also appropriate as a textbook for graduate level courses in special education Early Childhood Assessment National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Board on Children, Youth, and Families, Committee on Developmental Outcomes and Assessments for Young Children, 2008-12-21 The assessment of young children s development and learning has recently taken on new importance Private and government organizations are developing programs to enhance the school readiness of all young children especially children from economically disadvantaged homes and communities and children with special needs Well planned and effective assessment can inform teaching and program improvement and contribute to better outcomes for children This book affirms that assessments can make crucial contributions to the improvement of children s well being but only if they are well designed implemented effectively developed in the context of systematic planning and are interpreted and used appropriately Otherwise assessment of children and programs can have negative consequences for both The value of assessments therefore requires fundamental attention to their purpose and the design of the larger systems in which they are used Early Childhood Assessment addresses these issues by identifying the important outcomes for children from birth to age 5 and the quality and purposes of different techniques and instruments for developmental assessments **Early Childhood**

Intervention Christina J. Groark, Steven M. Eidelman, Susan Maude, Louise Kaczmarek, 2011-07-22 This eye opening set looks at young children with special needs their families and the laws policies programs and services designed to help them The three volume Early Childhood Intervention Shaping the Future for Children with Special Needs and Their Families is a unique comprehensive and much needed examination of a critically important issue In its pages a diverse array of experts discuss key aspects of policies laws rights programs and services available to children today Examinations range from historical roots to present day considerations such as culturally and linguistically diverse children use of technology and contemporary testing and teaching methods Throughout the most current and best available research is combined with professional and clinical experience wisdom values and family perspectives The work explores issues affecting both children with psychological disorders and those with physical challenges such as children who are blind or hearing impaired Coverage includes all aspects of life skills medicine health sciences education and child welfare Although it is focused on programs in the United States this comprehensive set offers additional insights by including comparisons of U S programs and services with their international counterparts
