Austin Police Policy Manual:

Police Power and the Video Revolution Mary D. Fan, 2019-05-09 This is the first book on the policy questions raised by two revolutions in recording the police: copwatching and police worn body cameras. This accessible book with compelling stories and coverage of the most important debates over privacy and police regulation will appeal broadly to students, laypersons, practitioners, and experts.

Migration, Security, and Resistance Graham Hudson, Idil Atak, 2021-11-15 This volume explores the digitization, privatization, and spatial displacement of border security and the effects these have on political accountability and migrant rights. The governance of security and migration is unfolding in new political spaces. Cooperation and competition among immigration officials, border guards, transnational security corporations, IT companies, local police, and international organizations has decoupled migration governance from national political structures. The chapters in the volume examine how these dynamics affect the deployment and constraint of sovereign power in the United States, Canada, the United Kingdom, and the EU. Contributors trace this process from the disciplinary perspectives of law, political science, sociology, criminology, and geography. Part I of the book explores the reconfiguration of security and migration governance through historical processes of privatization, digitization, and the rescaling of border control technologies to local and global spaces. Part II explores how migrant rights actors have responded by rescaling resistance to global and local levels. This book will be of much interest to students of critical security studies, global governance, migration studies, and international relations.

Police Funding, Dark Money, and the Greedy Institution Randy K. Lippert, Kevin Walby, 2022-05-05 Police Funding, Dark Money, and the Greedy Institution is about a pervasive but little studied phenomenon: Private funding of public police entails private entities sending resources to police through unconventional or hidden channels, sometimes for suspect reasons. The book argues police acquisition of this dark money befits the notion of a greedy institution that pursues resources beyond ample public funding and needs and seeks ever more loyal members beyond its traditional boundaries to reproduce itself. The book focuses on private police foundations, corporate sponsorships, and paid detail arrangements, primarily in North America, how these funding networks operate and are framed for audiences and the forms and volumes of capital they generate. Based on interviews with police representatives, sponsors, funders, and foundation representatives, as well as records from over 100 police departments, this book examines key issues in private funding of public police, including corporatization, accountability, corruption, and the rule of law. It documents and analyzes the troubling explosion of police foundations and sponsors and corporate paid detail brokers, unknown to the public as a social and policy issue and a hidden response to the global police defunding movement. The book also considers potential policy responses and community safety alternatives in a more generous society. An accessible and compelling read, students and scholars in criminology, criminal justice, law, sociology, political science, anthropology, geography, as well as policymakers, will find this timely book revealing of a neglected, growing area of police practice spanning multiple themes and jurisdictions.
