Ballykilcline Rising Mary Lee Dunn, 2008 How tenant farmers evicted from Ireland made a new life in the United States

Ballykilcline Rising Mary Lee Dunn, Mary Lee Dunn Maguire, *Ballykilcline Rising* Mary Lee Dunn, 2008 How tenant farmers evicted from Ireland made a new life in the United States *Ireland's Great Famine in Irish-American History* Mary Kelly, 2013-11-18 Ireland's Great Famine in Irish American History Enshrining a Fateful Memory offers a new concise interpretation of the history of the Irish in America Author and distinguished professor Mary Kelly's book is the first synthesized volume to track Ireland's Great Famine within America's immigrant history and to consider the impact of the Famine on Irish ethnic identity between the mid 1800s and the end of the twentieth century Moving beyond traditional emphases on Irish American cornerstones such as church party and education the book maps the Famine's legacy over a century and a half of settlement and assimilation This is the first attempt to contextualize a painful memory that has endured fitfully and unquestionably throughout Irish American historical experience **Ireland's Great Famine and Popular**

Politics Enda Delaney, Breandán Mac Suibhne, 2015-11-19 Ireland's Great Famine of 1845-52 was among the most devastating food crises in modern history A country of some eight and a half million people lost one million to hunger and disease and another million to emigration According to land activist Michael Davitt the starving made little or no effort to assert the animal's right to existence passively accepting their fate But the poor did resist In word and deed they defied landlords merchants and agents of the state they rioted for food opposed rent and rate collection challenged the decisions of those controlling relief works and scorned clergymen who attributed their suffering to the Almighty The essays collected here examine the full range of resistance in the Great Famine and illuminate how the crisis itself transformed popular politics Contributors include distinguished scholars of modern Ireland and emerging historians and critics This book is essential reading for students of modern Ireland and the global history of collective action **The Famine Irish** Ciaran

Reilly, 2016-04-04 From a range of leading academics and historians this collection of essays examines Irish emigration during the Great Famine of the 1840s From the mechanics of how this was arranged to the fate of the men women and children who landed on the shores of the nations of the world this work provides a remarkable insight into one of the most traumatic and transformative periods of Ireland's history More importantly this collection of essays demonstrates how the Famine Irish influenced and shaped the worlds in which they settled while also examining some of the difficulties they faced in doing so **The Archaeology of Removal in North America** Terrance Weik, 2019-06-12 This edited volume brings

together people seeking to understand what happens when human beings are forced out of their homes and away from their usual places of work play worship and well being It illustrates how archaeologists are situated among the anthropologists and other scholars who are investigating the catalysts dynamics and meanings of removal **Imaging the Great Irish**

Famine Niamh Ann Kelly, 2018-06-12 The depiction of historical humanitarian disasters in art exhibitions news reports

monuments and heritage landscapes has framed the harrowing images we currently associate with dispossession. People across the world are driven out of their homes and countries on a wave of conflict, poverty and famine, and our main sites for engaging with their loss are visual news and social media. In a reappraisal of the viewer's role in representations of displacement, Niamh Ann Kelly examines a wide range of commemorative visual culture from the mid nineteenth century Great Irish Famine. Her analysis of memorial images, objects and locations from that period until the early 21st century shows how artefacts of historical trauma can affect understandings of enforced migrations as an ongoing form of political violence. This book will be of interest to students and researchers of museum and heritage studies, material culture, Irish history and contemporary visual cultures exploring dispossession. *Archaeological Thinking* Charles E. Orser, Jr., 2014-11-07 In *Archaeological Thinking* Charles E. Orser Jr provides a commonsense guide to applying critical thinking skills to archaeological questions and evidence. *Becoming Irish American* Timothy J. Meagher, 2023-11-07 The origins and evolution of Irish American identity from colonial times through the twentieth century. As millions of Irish immigrants and their descendants created community in the United States over the centuries, they neither remained Irish nor simply became American. Instead, they created a culture and defined an identity that was unique to their circumstances: a new people that they would continually reinvent. Irish Americans. Historian Timothy J. Meagher traces the Irish American experience from the first Irishman to step ashore at Roanoke in 1585 to John F. Kennedy's election as president in 1960. As he chronicles how Irish American culture evolved, Meagher looks at how various groups adapted and thrived: Protestants and Catholics, immigrants and American born, those located in different geographic corners of the country. He describes how Irish Americans made a living, where they worshiped and when they married, and how Irish American politicians found particular success from ward bosses on the streets of New York, Boston and Chicago to the presidency. In this sweeping history, Meagher reveals how the Irish American identity was forged, how it has transformed, and how it has held lasting influence on American culture.
