Barbarossa Derailed David Glantz, 2014-10-19 The supplemental companion to a two part study on Operation Barbarossa Hitler's plan to invade Soviet Russia during World War II Volume three the Documentary Companion to Barbarossa Derailed contains the documentary evidence for the two volumes of narrative In addition to key Führer Directives issued by Adolf

Hitler to provide direction to his forces during the Barbarossa Campaign as well as vital orders issued by German Army Group Center this book includes the daily operational summaries of the participating Soviet fronts armies and some divisions and many if not most of the orders and reports issued by the struggling Soviet armies Precise translations illustrate not only the capabilities and states of mind of key Soviet commanders as they dealt with crisis after crisis but also the characteristics such as aggressiveness passivity brutality and despair of their varied styles of command They also demonstrate how an army which lost the bulk of its experienced troops during the first several months of the campaign attempted to use its operational directives and tactical orders to educate its soldiers and officers in the basics of waging war in the midst of active and bloody operations Praise for *Barbarossa Derailed* A meticulous operational narrative covering a key Eastern Front campaign Glantz certainly succeeds in providing the best account of Smolensk to date Parameters The US Army War College Quarterly Both author and publisher are to be congratulated for producing such a detailed and comprehensive study of what could turn out to be one of the seminal battles of the Soviet German War Given the amount of Russian material in this volume and presumably in the volumes still to be published taking all four volumes collectively this will hopefully mean a more objective and factually accurate description of the roles of both major combatants in the early opening phase of the war on the Eastern Front and may well cause others to re-examine the Battle and assess its overall importance to the eventual victory of the USSR Dr Steven J Main DefAc UK British Army Review With *Barbarossa Derailed* Glantz has provided the specialist on the Soviet German War with an excellent study of this early conflict that served as an incubator for Soviet victory Canadian Slavonic Papers A necessary and valuable addition to the English language literature on the Great Patriotic War It includes a wealth of documents never before available in English and it substantially revises earlier accounts of the Battle of Smolensk Journal of Military History

Barbarossa Derailed David M. Glantz, 2014 This study exploits a wealth of Soviet and German archival materials including the combat orders and operational records of the German OKW OKH army groups and armies of the Soviet Stavka the Red Army General Staff the Western Main Direction Command the Western Central Reserve and Bryansk fronts and their subordinate armies to present a detailed mosaic and definitive account of what took place why and how during the prolonged and complex battles in the Smolensk region from 10 July through 10 September 1941 The series will consist of a detailed two volume chronological narrative of the course of operations accompanied by a third volume containing an extensive collection of specific orders and reports translated verbatim from Russian and a fourth atlas volume containing newly commissioned colour maps Dust jacket

Barbarossa Derailed: The Battle for Smolensk 10 July-10 September 1941 Volume 4 David M Glantz, 2022-05-15 At dawn on 10 July 1941 massed tanks and motorized infantry of German Army Group Center's Second and Third Panzer Groups crossed the Dnepr and Western Dvina Rivers beginning what Adolf Hitler the Fuhrer of Germany's Third Reich and most German officers and soldiers believed would be a triumphal march on Moscow the capital of the Soviet Union Less than three weeks before on 22 June Hitler had unleashed his

Wehrmacht's massive invasion of the Soviet Union code named Operation Barbarossa which sought to defeat the Soviet Union's Red Army conquer the country and unseat its Communist ruler Josef Stalin. Between 22 June and 10 July the Wehrmacht advanced up to 500 kilometers into Soviet territory killed or captured up to one million Red Army soldiers and reached the western banks of the Western Dvina and Dnepr Rivers by doing so satisfying the premier assumption of Plan Barbarossa that the Third Reich would emerge victorious if it could defeat and destroy the bulk of the Red Army before it withdrew to safely behind those two rivers. With the Red Army now shattered Hitler and most Germans expected total victory in a matter of weeks. The ensuing battles in the Smolensk region frustrated German hopes for quick victory. Once across the Dvina and Dnepr Rivers a surprised Wehrmacht encountered five fresh Soviet armies. Despite destroying two of these armies outright severely damaging two others and encircling the remnants of three of these armies in the Smolensk region quick victory eluded the Germans. Instead Soviet forces encircled in Mogilev and Smolensk stubbornly refused to surrender and while they fought on during July August and into early September first five and then a total of seven newly mobilized Soviet armies struck back viciously at the advancing Germans conducting multiple counterattacks and counterstrokes capped by two major counteroffensives that sapped German strength and will. Despite immense losses in men and materiel these desperate Soviet actions derailed Operation Barbarossa. Smarting from countless wounds inflicted on his vaunted Wehrmacht even before the fighting ended in the Smolensk region Hitler postponed his march on Moscow and instead turned his forces southward to engage softer targets in the Kiev region. The derailment of the Wehrmacht at Smolensk ultimately became the crucial turning point in Operation Barbarossa. Serving as both a companion to the previous three text volumes in this monumental study and as a standalone battlefield atlas this volume provides over one hundred specially commissioned color maps that trace the course of the campaign each accompanied by a detailed caption.

The series will consist of a detailed two volume chronological narrative of the course of operations accompanied by a third volume containing an extensive collection of specific orders and reports translated verbatim from Russian and a fourth atlas volume containing newly commissioned colour maps. armies to present a detailed mosaic and definitive account of what took place why and how during the prolonged and complex battles in the Smolensk region from 10 July through 10 September 1941 The structure of the study is designed specifically to appeal to both general readers and specialists by a detailed two volume chronological narrative of the course of operations accompanied by a third volume and perhaps a fourth containing archival maps and an extensive collection of specific orders and reports translated verbatim from Russian The maps archival and archival based detail every stage of the battle Within the context of Guderian s southward march toward the Kiev region volume 2 in this series describes in unprecedented detail the Red Army s attempts to thwart German offensive plans by defeating Army Group Center in the Smolensk region with a general counteroffensive by three Red Army fronts This volume restores to the pages of history two major military operations which for political and military reasons Soviet historians concealed from view largely because both offensives failed This volume includes The Northern Flank Group Stumme s Third Panzer Group Advance to Velikie Luki Toropets and Zapadnaia Dvina 22 August 9 September 1941 German Strategic Planning the Tilt toward Kiev and Second Panzer Group s Advance Across the Desna River 22 28 August 1941 The Third Soviet Counteroffensive including the Western Front s Dukhovshchina Offensive 26 August 6 September 1941 the Reserve Front s El nia Offensive 30 August 10 September 1941 and the Bryansk Front s Roslavl Novozybkov Offensive 29 August 14 September 1941 Based on the analysis of the vast mass of documentary materials exploited by this study David Glantz presents a number of important new findings notably Soviet resistance to Army Group Center s advance into the Smolensk region was far stronger and more active than the Germans anticipated and historians have previously described The military strategy Stalin the Stavka and Western Main Direction Command pursued was far more sophisticated than previously believed Stalin the Stavka and Timoshenko s Western Main Direction Command employed a strategy of attrition designed to weaken advancing German forces This attrition strategy inflicted far greater damage on Army Group Center than previously thought and ultimately contributed significantly to the Western and Kalinin Fronts victories over Army Group Center in December 1941 **Barbarossa**
