A Model For Work Based Learning

RC Schank

A Model For Work Based Learning:

Work-Based Learning Joseph A. Raelin, 2008-02-13 Work based learning is Joe Raelin's unique way of incorporating a number of action strategies such as action learning, action science and communities of practice into a comprehensive framework to help people learn collectively with others. In this thoroughly updated and revised edition, he demonstrates how to engage our reflective powers to challenge those taken-for-granted assumptions that unwittingly hold us back from questioning standard ways of operating. A well-known popular author, Joe is an avid student of the many traditions that support work-based learning, so he presents an inclusive model that has wide appeal across disciplines and occupations. He provides readers with the most recent updates in the field, such as his coverage of virtual team learning, portfolios, multisource feedback, critical and global action learning, and changes in educational policy. Whether you're an organizational or college educator, this book will help you make learning accessible to everyone and even contagious within your organization.

A Model for Work-based Learning Belle Y. Alderman, Patricia Milne, 2005 Work-based learning, in which professional work experience is closely integrated with professional study, now forms an important part of many courses in tertiary institutions. *A Model for Work Based Learning* offers a plan designed to enhance the professional experience through facilitated mentoring and reflective learning, and is based on an internship that has proven highly successful over the last ten years at the University of Canberra. This strategy, which features collaborative teaching and learning, is applicable to other professional courses within tertiary environments. Part 1 describes the research base for all aspects of the model and shows how a program based on the theoretical model can be implemented, bringing together facilitated mentoring and theory. Part 2 contains a range of activities that can be used by educators during all aspects of the work experience, from preparing students and mentors through assisting the student's move into the professional workforce. The conclusion explores the crucial success factors of the work-based learning model. This volume is an invaluable guide to educators and mentors in the workplace.

[Approaches to Work-Based Learning in Higher Education](#) Matthew Barr, 2024-12-17 *Approaches to Work Based Learning in Higher Education* provides a comprehensive introduction to the delivery of university-level work-based learning (WBL) for educators and policymakers. The contributing authors draw from their wealth of experience of developing apprenticeships, placement programmes, and other work-based learning opportunities, advising on best practice when delivering learning in partnership with industry. Supported by a unique balance of practical and theoretical insight, including international perspectives on how common challenges may be addressed, this essential volume explores the following key themes: Pedagogies: this section outlines established best practice in the delivery of WBL for higher education and offers suggestions for how readers may continue to develop and improve their provision. Projects: this section covers a range of approaches to work-based learning within higher education and explores examples of this in practice, including live briefs, work placements, and industrial project-based learning. Apprenticeships: this section focuses specifically on work-based

degree programmes covering their design delivery implementation and assessment A must read for anyone working within higher education policy or practice this book provides readers with the tools to successfully navigate work based learning as well as strategies for ensuring and enhancing the quality of the learning experience Work Based Learning in Health Care Katherine Rounce,2005-02-10 This book is about sharing knowledge and practice It arose from a conference that was hosted by the Work Based Learning and Accreditation Unit of the School of Health and Social Sciences at Middlesex University We believed that as a Unit and within the University we have the expertise and experience to make a significant contribution to the debates surrounding the development and implementation of work based learning in health care However we were also aware that we are by no means alone in this and that excellent work is being developed and practised in many other universities and organisations and so the idea of the conference as a platform from which to share knowledge and practice was born Whilst this book doesn't provide a how to guide it addresses a topic that has become increasingly important in government business and education the role of the workplace in the generation of knowledge in a complex and changing society The book presents a range of ideas and practice that cross many of the debates in work based learning including the student experience the organisational experience of accreditation and professional impact as well as academic and policy reviews As such we believe that those who are experienced in work based learning and those who are just beginning to think about it will find something here to stimulate thinking and the development of new ideas **Facilitating Work-Based Learning** Ruth Helyer,2015-10-06 Work based learning routes are a versatile and innovative way to gain higher education qualifications This book reflects that flexibility and prepares tutors for helping work based students learn in a variety of ways at both undergraduate and postgraduate level Offering practical information and advice the book covers the major aspects of work based learning which include Accreditation of prior learning APL Work based projects Learning agreements Relevant innovative assessment methods Quality assurance and enhancement mechanisms How technology can be utilised as a learning tool Featuring activities case studies and useful hints and tips informed by a range of international scholars it's the ideal companion for tutors of work based learning students **Placements and Work-based Learning in Education Studies** Jim Hordern,Catherine A. Simon,2017-01-06 Written specifically for education studies students this accessible text offers a clear introduction to placements and work based learning providing an insight into work in schools and education settings Including case studies to illustrate the diversity of placements and workplace opportunities it explores the theory and practice of working in educational contexts and supports students as they develop the skills and aptitudes that enhance their employability With the aim of helping students to prepare for and get the most out of their work placements chapters include the nature of work based learning on placement preparing for your placement placements in schools and other educational settings learning on field trips and study visits working with students with specific learning difficulties dyslexia on placement international placements Part of the Foundations of Education Studies series this textbook is essential reading
