**Handbook for the Architectural Manager** Stephen Emmitt,Mohammed A. Alharbi,2018-04-25 The essential resource for becoming more effective in the highly competitive architectural marketplace Handbook for the Architectural Manager offers architects a comprehensive resource that brings together critical information on four interlinked areas managing the architectural office projects stakeholders and learning Unlike other books on the topic that only stress management of the business or the

management of projects this book offers a guiding framework that encompasses the architectural manager's role in developing the practice's competitive strategies and overseeing the project portfolio. Written by noted experts in the field, *Handbook for the Architectural Manager* is grounded in current research in which for the first time the components of architectural management have been analyzed systematically, tested, and developed for practical application. Designed to explore typical architectural management issues, the book provides clear and concise direction with practical step-by-step guidance as well as helpful checklists, templates, and scenarios and case studies to illustrate best practice. This essential resource offers a groundbreaking handbook that contains a comprehensive management framework for architectural practice. Contains new insights and guidance based on solid research on managing the architectural practice. Brings together in one book the best management techniques of the office, projects, stakeholders, and learning. Includes a well-grounded critical review of the existing literature on the topic. Designed for professionals in the field but written in accessible language suitable for students. *Handbook for the Architectural Manager* offers a practical guide for overseeing the development of architectural designs and associated activities and ensuring all work is consistent, i.e., adheres to current standards, legislation, client specifications, and office protocols and completed on time, as well as information on staff development and learning.

*Integrating Innovation in Architecture* Ajla Aksamija, 2017-03-13 Today's design professionals are faced with challenges on all fronts. They need not only to keep in step with rapid technological changes and the current revolution in design and construction processes but to lead the industry. This means actively seeking to innovate through design research, raising the bar in building performance, and adopting advanced technologies in their practice. In a constant drive to improve design processes and services, how is it possible to implement innovations? And moreover, to assimilate them in such a way that design methods and technologies remain fully integrated. Focusing on innovations in architecture, this book covers new materials and design methods, advances in computational design practices, innovations in building technologies and construction techniques, and the integration of research with design. Moreover, it discusses strategies for integrating innovation into design practices, risks, and economic impacts. Through numerous case studies, it illustrates how innovations have been implemented on actual architectural projects and how design and technical innovations are used to improve building performance, as well as design practices in cutting-edge architectural and engineering firms. Projects of all scales and building types are discussed in the book, ranging from small-scale installations, academic and commercial buildings to large-scale mixed-use, healthcare, civic, academic, scientific research, and sports facilities. Work from design firms around the globe and of various scales is discussed in the book, including, for example, Asymptote Architecture, Cepezed, CO Architects, Consarc Architects, FAAB, Architektura, Gerber Architekten, HOK, IDOM, ACXT, MAD Architects, Morphosis Architects, SDA, Synthesis Design Architecture, Studiotrope, Perkins+Will, Richter Dahl, Rocha Associados, Snhetta, Rob Ley Studio, Trahan Architects, UNStudio, and Zaha Hadid Architects among many others.
