

Principles of Design

Variety by Contrast

Descriptions: There are three different colors on this wall, each with different patterns and colors, but when combined, they flow because the underlying pattern on each panel relates to the other two.

Definitions: Things that have contrast but still make sense together.

Sentences: Contrasting variety is easily noticeable, especially when it is in shape or color.

Balance Asymmetrical

Descriptions: This picture is asymmetrical because there is a column on the right hand side, but on the left there is nothing so the left side seems lighter than the right. This makes an asymmetrical balance because it is not the same down the middle.

Definitions: Asymmetrical balance is when something is uneven but works in harmony with itself.

Proportional Relationship

Descriptions: The proportion of the entry way to the size of the actual portal is very off in this structure. The entry way is much smaller than the entry way and the side facing pillars.

Definitions: Referring to the scale of what has been built, to the size of what is around.

Sentences: Proportion is similar to scale, but it refers to the actual size of what has been built.
