Bees is the comprehensive source for new and experienced beekeepers offering a sustainable natural and repeatable model of care for hive health and production. Global pests and diseases present an unprecedented challenge for the modern honey bee. Hobby and commercial beekeepers alike continue to experience troubling rates of mortality for their colonies with potentially deleterious consequences for the stability of our wider ecosystems and overall food security. It is time for a global focus on restoring the health of the shared apiary through naturally reared genetically diverse and resilient lines of bees. Raising Resilient Bees establishes these parameters and provides guidance for new and experienced beekeepers alike to translate these goals into real practice thereby safeguarding the honey bee from the unknown threats of the future. Authors Eric and Joy McEwen take two decades worth of beekeeping experience, experiments and professional production to deliver groundbreaking methods in queen rearing, varroa mite management and Natural Nest hive design. Inside you will discover Revived and adapted heritage Integrated Pest Management techniques. How to naturally rear queens and select for resilient mite resistant genetic lines without relying on swarming or grafting. Key tenets of apicentric beekeeping. Advice for establishing a flourishing and sustainable business with beekeeping at the center. How to naturally rear bees with distinctive characteristics suitable to their locale. As in large scale agriculture the trend toward genetic homogenization is having long term implications for bees' capacity to withstand diverse environmental stressors. With expert advice, enthusiasm and easy to follow instructions, Raising Resilient Bees delivers important and timely information for every beekeeper to create a healthier future.
